Ontario Energy Board
2300 Yonge Street, Suite 2700
Toronto, Ontario M4P 1E4

Attention: Christine Long, Board Registrar

Dear Ms. Long:

**Re: Ontario Sustainable Energy Association's Focus at Technical Conference
Ontario Power Generation Inc. - 2022-2026 Payment Amount Application
Board File No. EB-2020-0290**

Further to the Ontario Energy Board's Procedural Order No. 1 dated February 17, 2021, the Ontario Sustainable Energy Association ("OSEA") will be focusing on the following interrelated topics at the technical conference:

- ♦ Surplus Baseload Generation ("SBG"), including whether the current calculation of SBG remains appropriate. In particular, OSEA is seeking to evaluate whether OPG has responded appropriately to OPG's agreement in EB-2018-0243 to assess "opportunities OPG can take to help the system respond to SBG conditions in order to mitigate the associated cost to customers," and
- ♦ regulated hydroelectric operations, including how OPG manages its hydroelectric assets during periods of SBG, and how OPG's operation of these assets impacts amounts recorded in the Hydroelectric SBG Variance Account.

OSEA anticipates spending one (1) hour on these topics at the technical conference.

Yours truly,

Raeya Jackiw

cc: Dan Goldberger, OSEA
