Attention: Board Registrar
Regarding: Consultation on Updates to Filing Requirements for Electricity
Distribution Cost of Service Applications Ontario Energy Board File No.: EB-2021-0076

Dear Ms. Long,

Hydro Hawkesbury Inc. and Cooperative Hydro Embrun are schedule to file their next Cost of Service applications in May of 2022 for rates effective January 1, 2023. This is letter is a formal nomination for our regulatory representative Manuela Ris-Schofield of Tandem Energy Services Inc. to be part of the working group.

Manuela works almost exclusively with smaller utilities. In our experience working with her, she consistently strives to find efficiencies in preparing an application as well as challenges our utilities to find cost efficiencies both in the preparation of an application but also in our day to day running of the utility . We feel that her expertise and extensive experience in Cost-of-Service applications would be an asset to the working group and that Hydro Hawkesbury and Cooperative Hydro Embrun's interest in the Proportionate Review would be well represented if she were part of the working group on our behalf.

Yours truly,
