Having received and read the letter pertaining to the proposed removal of Seasonal Rate Class. I was appalled with the arrogance of this Monopoly and its disregard for the citizens of Ontario. This has just confirmed my feeling of Hydro One being an out of control, mismanaged, government protected utility. Over the course of the past few years, its expenditures have been out of control, from the pay rates, benefits of its on the ground employees to its incompetent administrators. When will this stop?? Rather than reeling in the excessive expenditures and waste, this organization just expects the citizens of Ontario to cover the bills with the support of the Provincial Government. Enough is enough. Privatization may not be such a bad option.
