VIA EMAIL and RESS

Ms. Christine E. Long
Registrar
Ontario Energy Board
2300 Yonge Street, 27th Floor
Toronto, ON M4P 1E4

Dear Ms. Long:

**Re: Enbridge Gas Inc. (Enbridge Gas)
Ontario Energy Board (OEB) File No.: EB-2020-0192
London Line Replacement Project – Change Request No. 3**

Please find attached Change Request No. 3 as submitted by Enbridge Gas for the London Line Replacement Project (the Project).

Enbridge Gas is filing this Change Request pursuant to Condition of Approval No. 7 of the OEB's EB-2020-0192 Leave to Construct Decision and Order dated January 28, 2021.

As detailed in Attachment 1 (Change Request Form), Enbridge Gas requires additional temporary land use rights (TLU) to allow for modified construction methods in several locations along the London Line Replacement Pipeline Project (the Project) area. Recent detailed design work has identified areas where a road crossing should be shifted for safety and ease of installation which requires additional TLU. One additional land purchases have been identified for a station as the original location for the station was inadequate due to constructability issues with other utilities in the area.

As part of this Change Request, Enbridge Gas is also attaching an Updated Detailed Pipeline Map and Updated Landowner Line List.

The names and addresses of landowners have been removed to safeguard the landowner privacy from the following exhibits:

- Updated Landowner List – Attachment 3
- Updated Proposed Pipeline Location Maps – Attachment 4

The confidential or unredacted exhibits will be provided to the OEB under separate cover.

Due to the rational for this request, Enbridge Gas respectfully requests a timely review and approval of this request.

May 26, 2021

CHANGE REQUEST

Project Name: London Lines Replacement Project

OEB File Number: EB-2020-0192

Change Request: 3

Description and Rationale for Change

Enbridge Gas requires additional temporary land use rights (TLU) to allow for modified construction methods in several locations along the London Line Replacement Pipeline Project ("the Project") area. Recent detailed design work has identified areas where a road crossing should be shifted for safety and ease of installation, as a result TLU is required on L57B, L57C.

One additional land purchases have been identified for a station. Further detailed design work has shown that original location for the station was inadequate due constructability issues with other utilities in the area, as a result a piece of land is being purchased and TLU around that land has been requested (L23A).

A summary of the changes in in Table 1 below:

Change Category	Total Properties Affected
Added Land Purchase for Station, Added TLU	1
Added TLU	2

Construction and Restoration Practices

No impact to construction and/or restoration practices. The construction methods used are described in the General Techniques and Methods of Construction section at Exhibit D, Tab 1, Schedule 1 of the pre-filed evidence. Two methods of construction will be used, Open Cut/Trench and Horizontal Directional Drilling (HDD)/Bore.

Environmental

As per MHSTCI guidelines, an archaeological assessment will be completed on sites that were not included in the original filing.

Consultation

Consulted with the affected landowners to secure the necessary land rights.

The additional land rights affect new landowners who were not identified in the original filing.

Consultation is currently on-going. All landowners listed in Attachment 3 have been or will be offered the agreements in the form approved by the OEB.

Enbridge Gas is committed to continue to meet with landowners to further discuss and resolve whatever questions or concerns they may have. Enbridge Gas will have signed agreements in place prior to construction on the properties.

Lands

Enbridge Gas will pursue and acquire the necessary land rights from the landowners.

Costs

The additional TLU required has no material impact to the overall Project costs. The additional costs associated with the proposed changes will be allocated to the contingency budgeted for the project.

Schedule

No impact to the in-service date.

Attachments

Attachment 1 – Change Request Form

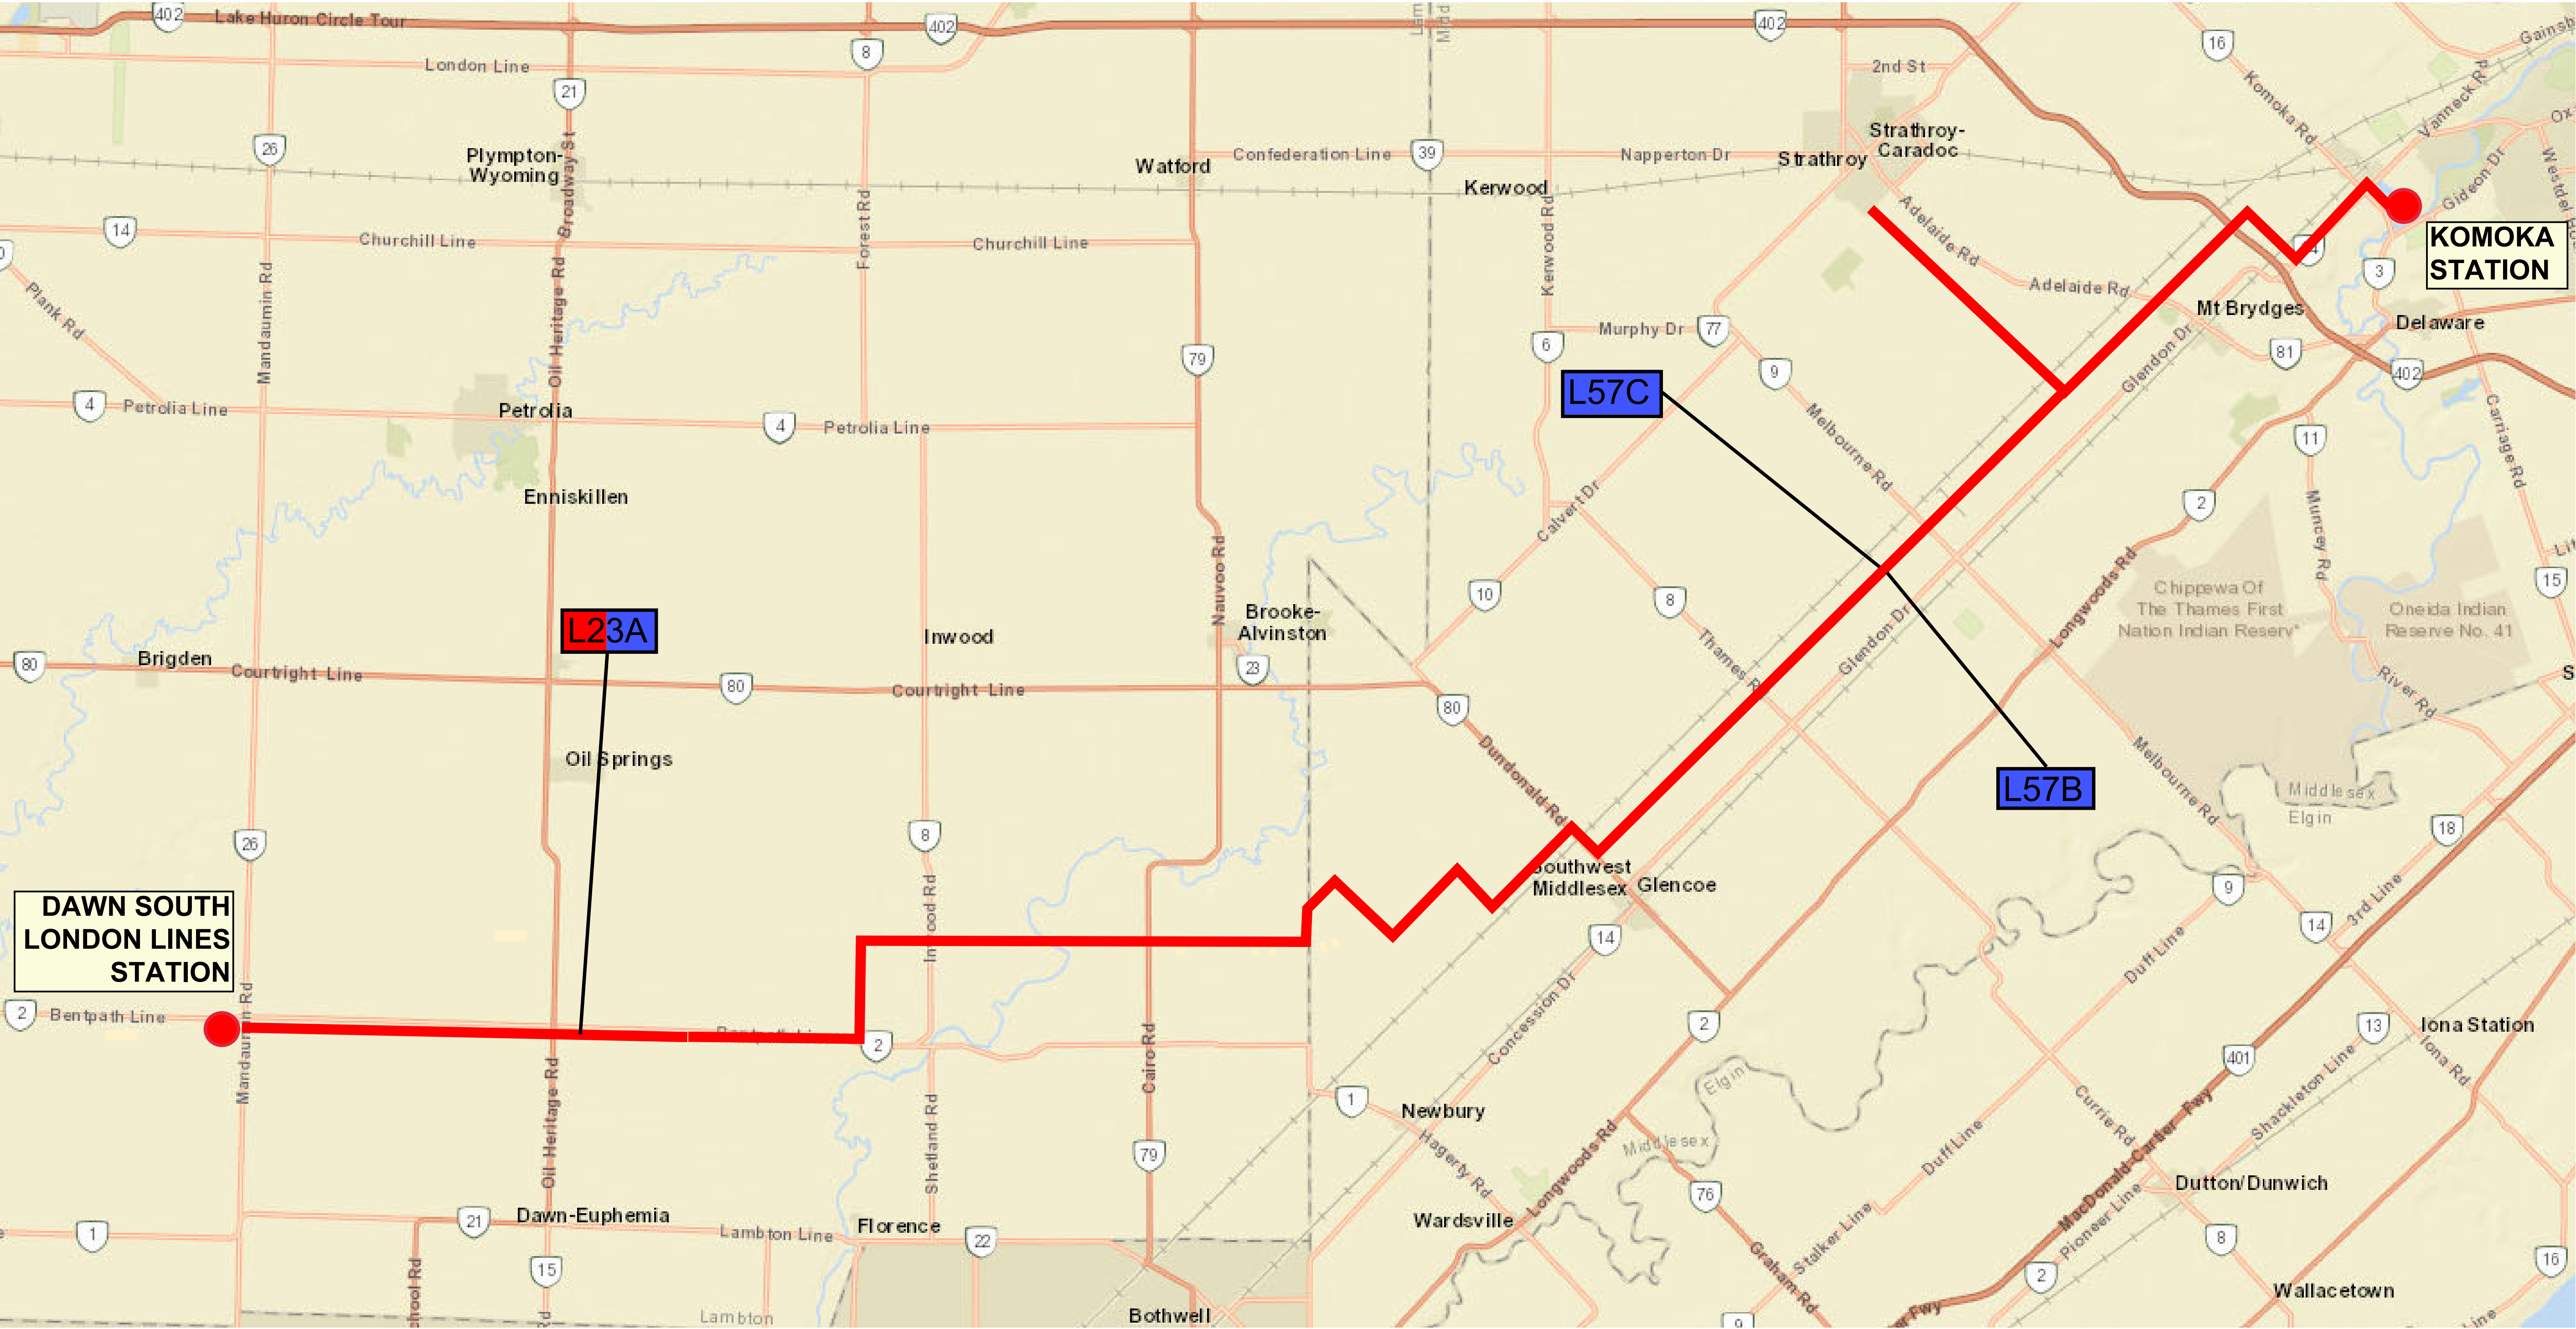

Attachment 2 – Map to show an overview of the project area and the general locations of the affected lands.

Attachment 3 – Updated Landowner Line List showing the land right changes. Changes from the version filed in the original filing are indicated in red text and yellow highlighted rows.

Attachment 4 – Updated Proposed Pipeline Location Maps showing the total set of land right areas. New land rights, included areas that have been reduced in size, have been highlighted with a bright blue shade. Existing land rights are shown in green hatching for temporary land and red for permanent easements or land purchases.

ADDED LAND REQUIREMENTS

-  LONDON LINES ROUTE
-  ADDED LAND PURCHASE
-  ADDED PERMANENT EASEMENT
-  ADDED TLU
-  INCREASED PURCHASE AREA
-  REDUCED SIZE OF TLU
-  INCREASED SIZE OF TLU
-  TLU NO LONGER REQUIRED
-  REVISED TLU LOCATION
