Dear **Sirs**:

Re: Interim FIT Generator Licence Application – EB 2021-0172

On May 25, 2021 we submitted FIT Generator Licence applications on behalf of our clients, 2825411 Ontario Inc. and 2825407 Ontario Inc. (together, the "**Applicants**"), together with the applicable fee and the required attachments. The applications are in respect of currently operating projects that will be acquired the Applicants, as set forth in more detail in the applications.

The parties to the transactions are proceeding with the completion of the preparation of the applicable closing documents, finalizing the financing arrangements and obtaining the third party consents for the transfers of the projects and anticipate these matters to be completed on or near the end of June. We understand that the typical processing time for a generator application to be between 60 and 90 days and in that regard we are providing this letter to request an interim generator licence for the Applicants.

The Applicants agree to comply with all applicable laws including, without limitation, the *Ontario Energy Board Act* (Ontario) and *Electricity Act* (Ontario) and all applicable Market Rules.

Please advise of any additional information or undertakings you require in respect of this submission.

Should you have any questions or concerns, please do not hesitate to contact me.

Yours truly,

FOGLER, RUBINOFF LLP

Eric R. Roblin*
