Hello,

I am just learning about this change to the seasonal rate classification and wanted to register my comment regarding my property at [REDACTED]. This is a remote boat access only cottage property on Georgian Bay that is used from Early May till October only, not otherwise accessible in the winter months and thus closed.

I realize that there are delivery charges etc. however if the cottage is closed, no hydro being used, I feel that we should somehow be recognized and not billed as such.

I hope that this will still be taken into account with your decision.

Many thanks,
Andrea Ronan
