La SIERE a déposé une demande d'approbation de ses besoins en revenus, de ses dépenses et de ses frais pour les années 2020 et 2021.

Renseignez-vous. Donnez votre avis.

Si la demande est approuvée telle quelle, les clients du Canada et les clients à l'étranger de la Société indépendante d'exploitation du réseau d'électricité (SIERE) verront une augmentation de leurs frais d'utilisation en 2021 par rapport aux frais d'utilisation en 2020, comme indiqué ci-dessous.

La SIERE demande à la Commission de l'énergie de l'Ontario d'approuver les éléments suivants :

- un besoin en revenus de 191,8 M\$ pour l'année 2021 et les frais d'utilisation connexes de 1,271 \$/MWh à payer par les clients au Canada et de 1,0943 \$/MWh à payer par les clients à l'étranger, à compter du 1^{er} janvier 2021
- un besoin en revenus de 188,6 M\$ pour l'année précédente (2020) et de fixer les frais d'utilisation pour les clients au Canada à 1,227 \$/MWh et les frais d'utilisation pour les clients à l'étranger à 1,0125 \$/MWh, qui ont déjà été approuvés par la Commission de l'énergie de l'Ontario sur une base provisoire, comme frais d'utilisation définitifs pour la période du 1^{er} janvier 2020 au 31 décembre 2020
- des dépenses en immobilisations de 52 M\$ en 2020 et un budget de dépenses en immobilisations de 68,6 M\$ pour l'année 2021
- la remise (ou la facturation) aux acteurs du marché de la différence entre les frais d'utilisation de 2021 et les frais d'utilisation provisoires payés par les acteurs du marché
- l'augmentation des frais d'inscription jusqu'à 50 000 \$ par proposition pour l'approvisionnement en électricité et l'acquisition de capacités, y compris les services auxiliaires

La SIERE affirme que les besoins en revenus, les dépenses et les frais proposés sont basés sur le Plan d'activités 2020-2022 de la SIERE qui a été approuvé par le ministre de l'Énergie, du Développement du Nord et des Mines le 28 avril 2021.

Regulatory Accountability

The IESO is a not-for-profit corporate entity established in the *Electricity Act, 1998*, which is under the jurisdiction of the Ontario Minister of Energy. Its fees and licences to operate are set by the Ontario Energy Board. In fulfilling its role as the province's reliability coordinator, the IESO must comply with, oversee and enforce reliability standards and processes that are set by several regulatory bodies within and outside of Ontario.

Required Notice of OEB Applications

The IESO's expenditure and revenue requirement, as well as the fees it charges, are regulated by the Ontario Energy Board (OEB), a provincial government agency. At any time, the IESO may be involved in proceedings before the OEB for applications which it has filed. The IESO may also be participating in proceedings for applications filed by others in which the IESO is an interested party.

OEB Applications filed by the IESO

2020 and 2021 Revenue Requirement Submissions

The IESO filed its 2020 and 2021 Revenue Requirement Submissions with the Ontario Energy Board on May 27, 2021. The submissions and other documents which form the record of the OEB's proceeding are available on the [OEB's web site](#) (Case Number EB-2020-0230).

The IESO's expenditures, revenue requirements and fees allow for the continuing collaboration with stakeholders to implement a competitive framework to address supply shortfalls emerging later this decade, and promote greater participation in the electricity markets. As the organization works to find new efficiencies and drive down costs, these and other investments will be critical to the IESO's efforts to deliver value to Ontario's electricity customers and ensure reliability over the long term.
