Re: Independent Electricity System Operator (IESO) 2020-2021 Expenditure and Revenue Requirements
AMPCO Intervention Request
Board File No. EB-2020-0230

Dear Ms. Long:

I am writing pursuant to the OEB's Notice regarding the above proceeding to request intervenor status.

AMPCO's Interest

AMPCO is a not-for-profit consumer interest advocacy organization. AMPCO's members represent Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general. AMPCO members are major investors, major employers and a major part of communities in which we operate, across Ontario.

AMPCO and its member companies are well known to the Board. AMPCO participates in many proceedings, working groups, consultations and initiatives of the Ontario Energy Board in which matters relevant to Ontario's large electricity consumers are being addressed. AMPCO has previously been approved by the OEB in numerous IESO proceedings.

AMPCO's interest in the Board's regulation of distribution and transmission companies relates generally to the interests of consumers with respect to price, adequacy, reliability, affordability and quality of electricity service, and, more particularly, to how costs are allocated to, and rates are designed to recover costs from, industrial customers.

In this application, the IESO seeks approval of its revenue requirement, operating and capital expenditures and usage fees for the years 2020 and 2021. In addition to these issues, AMPCO's interest in the application relates to the updated plan for the Market Renewal Program (MRP) and the 2020-2022 Business Plan that underpins this application.

We respectfully request that the Board please confirm AMPCO's eligibility for an award of costs in this matter.
