Dear Ms. Long:

**Re: Enbridge Gas Inc. (Enbridge Gas)
Ontario Energy Board (OEB) File No.: EB-2020-0136
NPS 20 Replacement Cherry to Bathurst Project (Project)**

On December 17, 2020 the OEB issued its Decision and Order for the above noted proceeding which included, as Schedule B, several Conditions of Approval.

Please be advised that Enbridge Gas is to provide the OEB with notice of the commencement of construction, at least ten days prior to the date construction commences. Therefore, we are providing notification to the OEB that there is a single permit outstanding for this Project but we expect to receive it immanently and so intend to commence construction on July 5, 2021. Further, if for any reason actual construction start is significantly delayed then the Company will advise the OEB accordingly.

Per section 8. of the Conditions of Approval, Enbridge Gas shall designate one of its employees as project manager, and shall provide the employee's name and contact information to the OEB and to all appropriate landowners, and shall clearly post the manager's contact information in a prominent place at the construction site. Enbridge Gas is therefore advising the OEB that the project manager for the Project is:
