Ms. Christine Long  
Registrar and Board Secretary  
Ontario Energy Board  
P.O. Box 2319  
2300 Yonge Street, 27th Floor  
Toronto ON M4P 1E4

Re: Independent Electricity System Operator  
2020 and 2021 Expenditure and Revenue Requirement  
Board File No: EB-2020-0230

Dear Ms. Long,

Evolugen by Brookfield Renewable ("Evolugen") hereby requests intervenor status in Board File No: EB-2020-0230.

Evolugen is a registered electricity wholesaler and generator under the Ontario Energy Board. We operate close to 1500MW of installed capacity in Ontario, and market electricity both inside the IESO grid and with neighbour control areas. Evolgen will be directly impacted by the Board's decision on the IESO's proposed fees, and therefore has an interest in the outcome of this proceeding. Evolgen is not seeking cost eligibility.

Please provide copies of all communications and related documentation with respect to this matter to:
