Enbridge Gas Inc. says that it will be expanding access to natural gas service to customers in the new area pursuant to project funding being provided under Phase 2 of Ontario's Natural Gas Expansion Program.

THE ONTARIO ENERGY BOARD WILL HOLD A PUBLIC HEARING

The Ontario Energy Board (OEB) will hold a public hearing to consider Enbridge Gas's application. At the end of this hearing, the OEB will decide whether to grant Enbridge Gas's request.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.

CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY

In order to distribute natural gas in Ontario, a person must comply with the requirements of the *Municipal Franchises Act* (Act). This Act requires that a person that intends to distribute natural gas within a municipality must first receive approval from the OEB, in the form of a certificate of public convenience and necessity (certificate). Where the OEB has issued a certificate for an area but there is currently no natural gas distribution service, another person can apply for a certificate to serve that area. The OEB also regulates the distribution of natural gas within unincorporated townships and unorganized areas in the same manner.
