Dear Sir/Madam:

Re: **Amendment to Schedule 1**  
**Integrated Gas Recovery Services Inc. Electricity Licence EG-2005-0212**

Integrated Gas Recovery Services Inc. (IGRS) has an Electricity Generation Licence EG-2005-0212 (see attached). Schedule 1 of that licence includes:

- 1- The ownership and operation of the Britannia Facility, with an installed capacity of 5.5 MW and located at 950 Plymouth Drive, Mississauga, Ontario.
- 2- The ownership and operation of the Glenridge Gas Utilization Inc. Landfill Gas to electricity facility, with an installed capacity of 1.05 MW and located at 2800 Thorold Townline Road, Niagara Falls, Ontario.

At this time IGRS would like to amend item 2 to say:

*The ownership and operation of the WEG Landfill Gas to electricity facility, with an installed capacity of 2.1 MW and located at 2800 Thorold Townline Road, Niagara Falls, Ontario.*

IGRS is adding a second Jenbacher 320 1.05 MW reciprocating engine at this location and it is being installed under the IESO PSUI program to generate electricity for IGRS' own consumption on the site to power its compressor plant. The engine will be fueled by landfill gas. The engine is owned and operated by IGRS. The \$3.4M capital to install the engine was internally financed along with the PSUI incentive. The engine will be commissioned by June 30, 2021.

The name Glenridge Gas Utilization Inc. is not longer used as the facility is owned by IGRS. The plant is now known by IGRS as the WEG facility as it is physically located on the Walker Environmental Group Inc. (WEG) landfill site.

There are no changes of address or contact name for the licensee.

There is one change to the officers and directors of IGRS. Mr. Michael Watt will no longer be an officer and director of IGRS as of June 30, 2021. Mr. James Bellaire will take his place as an officer and director. Please see attached Section 16.

Yours very truly,

**INTEGRATED GAS RECOVERY SERVICES INC.**
