Toronto, ON M4P 1E4

July 14, 2021

**Re: EB-2021-0183 Green Button Implementation Consultation
Pollution Probe Participation Request**

Dear Ms. Long:

Pollution Probe received the notice for the above noted consultation and hereby applies for participant status and requests that it be eligible for the recovery of reasonably incurred costs for its participation. Pollution Probe represents a direct consumer and policy interest related to this proceeding and partners with consumers, communities and related stakeholders on issues directly related to Green Button.

Pollution Probe is a frequent intervenor in Board proceedings and a copy of our current Annual Filing can be found on the Board's website at the following location:

<http://www.rds.oeb.ca/HPECMWebDrawer/Record/647508/File/document>

Goals and Objectives

Pollution Probe supports the adoption of Green Button for electricity and natural gas in Ontario and intends to participate actively in this consultation, including input and feedback related to the guidance and direction being developed for distributors. To be successful, Green Button needs to be flexible, comprehensive and in alignment with tools to advance consumer and community needs.

Intention to Seek Cost Awards

Pollution Probe is a not-for-profit charitable organization. We receive individual donations as well as funding for consumer and research projects, such as on community energy planning, future of natural gas and regulated utility innovation, from a variety of public and private sources. Without the prospect of an award of costs, Pollution Probe's ability to participate in the consultation process would not be possible.

Pollution Probe has been an active and valuable participant in proceedings before the Ontario Energy Board and will continue to coordinate its activities, where appropriate, with other parties which represent consumer, municipal and environmental interests in Ontario.

Pollution Probe respectfully requests your acceptance of this request to participate and confirmation that it will be eligible for its costs.

Notice

Pollution Probe requests that further communications with respect to this matter be sent to:
