Toronto, ON M4P 1E4

July 26, 2021

**Re: EB-2021-0147 EGI 2022 Rates
Pollution Probe Intervenor Request Letter**

Dear Ms. Long:

Pollution Probe is in receipt of the notice issued July 16, 2021 for the above noted proceeding and hereby applies for intervenor status and requests that it be eligible for the recovery of reasonably incurred costs for its participation.

Pollution Probe is a frequent intervenor in Board proceedings, including Enbridge Annual Rate proceedings and a copy of our current Annual Filing can be found on the Board's website at the following location:

<https://www.rds.oeb.ca/CMWebDrawer/Record/687123/File/document>

Goals and Objectives

Pollution Probe intends to focus on issues related to the 2022 rate adjustments including, gas commodity and upstream transportation costs, demand side management, capital adjustments, lost revenue adjustment mechanism changes for the contract market, and average use/normalized average consumption. Enbridge has also requested an updated accounting order for the Impacts Arising from the COVID-19 Emergency Deferral Account. Enbridge has indicated that recovery for a base DSM budget for 2022 will be approved in this proceeding and that any variance from OEB approval in EB-2021-0147 will be addressed through EB-2021-0002.

Pollution Probe understands that Enbridge will be filing a 2022 capital (ICM) application this fall under EB-2021-0148 and that any adjustments related to the recent EB-2020-0091 OEB Decision would be made in that proceeding.

Intention to Seek Cost Awards

Pollution Probe is a not-for-profit charitable organization. We receive individual donations as well as funding for consumer and research projects, such as on community energy planning, future of natural gas and regulated utility innovation, from a variety of public and private sources. Without the prospect of an award of costs, Pollution Probe's ability to participate in the consultation process would not be possible.

Pollution Probe has been an active and valuable participant in proceedings before the Ontario Energy Board and will continue to coordinate its activities, where appropriate, with other parties which represent consumer, municipal and environmental interests in Ontario.

Pollution Probe respectfully requests your acceptance of this request to participate and confirmation that it will be eligible for its costs.

Notice

Pollution Probe requests that further communications with respect to this matter be sent to:
