August 9, 2021

**VIA EMAIL and RESS**

Christine E. Long  
Registrar  
Ontario Energy Board  
2300 Yonge Street, 27th Floor  
Toronto, ON M4P 1E4

Dear Christine Long:

**Re: Enbridge Gas Inc. (“Enbridge Gas” or the “Company”)  
Ontario Energy Board (“OEB”) File No.: EB-2020-0192  
London Line Replacement Project – Change Request No. 4**

Please find attached Change Request No. 4 as submitted by Enbridge Gas for the London Line Replacement Project (the “Project”). Enbridge Gas is filing this Change Request pursuant to Condition of Approval No. 7 of the OEB’s EB-2020-0192 Leave to Construct Decision and Order dated January 28, 2021.

As detailed in Attachment 1 (Change Request Form), Enbridge Gas has determined, through detailed engineering design and field investigation, that the planned location of a station on a plot of land at Falconbridge Drive and Adelaide Road should be adjusted. Accordingly, the Company proposes to adjust the location of the planned station on that same plot of land, including Fee Simple and temporary land use rights (“TLU”) and to eliminate additional TLU previously anticipated to be required downstream of that adjusted station location.

As part of this Change Request, Enbridge Gas is also attaching an Updated Landowner Line List and Updated Proposed Pipeline Location Map.

The names and addresses of landowners have been redacted/removed from the following exhibits to safeguard privacy:

- Updated Landowner List – Attachment 3
- Updated Proposed Pipeline Location Maps – Attachment 4

The confidential or unredacted exhibits will be provided to the OEB under separate cover.

Due to the rational for this request, Enbridge Gas respectfully requests a timely review and approval of this request.

August 9, 2021

P. Duguay (OEB Staff)

## **CHANGE REQUEST**

**Project Name:** London Lines Replacement Project

**OEB File Number:** EB-2020-0192

**Change Request:** 4

### **Description and Rationale for Change**

Enbridge Gas originally identified a plot of land at Falconbridge Drive and Adelaide Road to purchase for the purposes of building a station. Through further detailed engineering design and field investigation, it was determined that a different area, on the same property, would be better suited for the station build (impacting original proposed Fee Simple and temporary land use rights ("TLU")) and that additional TLU downstream of that adjusted station location were no longer required.

<b>Change Category</b>	<b>Total Properties Affected</b>
Shifted station location on the same property	1
Temporary land use rights no longer required	1

### **Construction and Restoration Practices**

No impact to construction and/or restoration practices. The construction methods used are described in the General Techniques and Methods of Construction section at Exhibit D, Tab 1, Schedule 1 of the pre-filed evidence; Open Cut/Trench and Horizontal Directional Drilling (HDD)/Bore.

### **Environmental**

As per Ministry of Heritage, Sport, Tourism and Culture Industries ("MHSTCI") guidelines, an archaeological assessment will be completed on sites that were not included in the original filing.

### **Consultation**

Consulted with the affected landowners to secure the necessary land rights.

The additional land rights do not affect new landowners. The affected landowners were identified in the original filing.

Consultation is currently on-going. The landowner listed in Attachment 3 has been or will be offered the agreements in the form approved by the OEB.

Enbridge Gas is committed to continue to meet with landowners to further discuss and resolve whatever questions or concerns they may have. Enbridge Gas will have signed agreements in place prior to construction on the properties.

### **Lands**

Enbridge Gas will pursue and acquire the necessary land rights from the landowners.

### **Costs**

The adjusted Fee Simple and TLU have no material impact to overall Project costs. Any additional costs associated with the proposed changes will be allocated to the contingency budgeted for the project.

### **Schedule**

No impact to the Project in-service date.

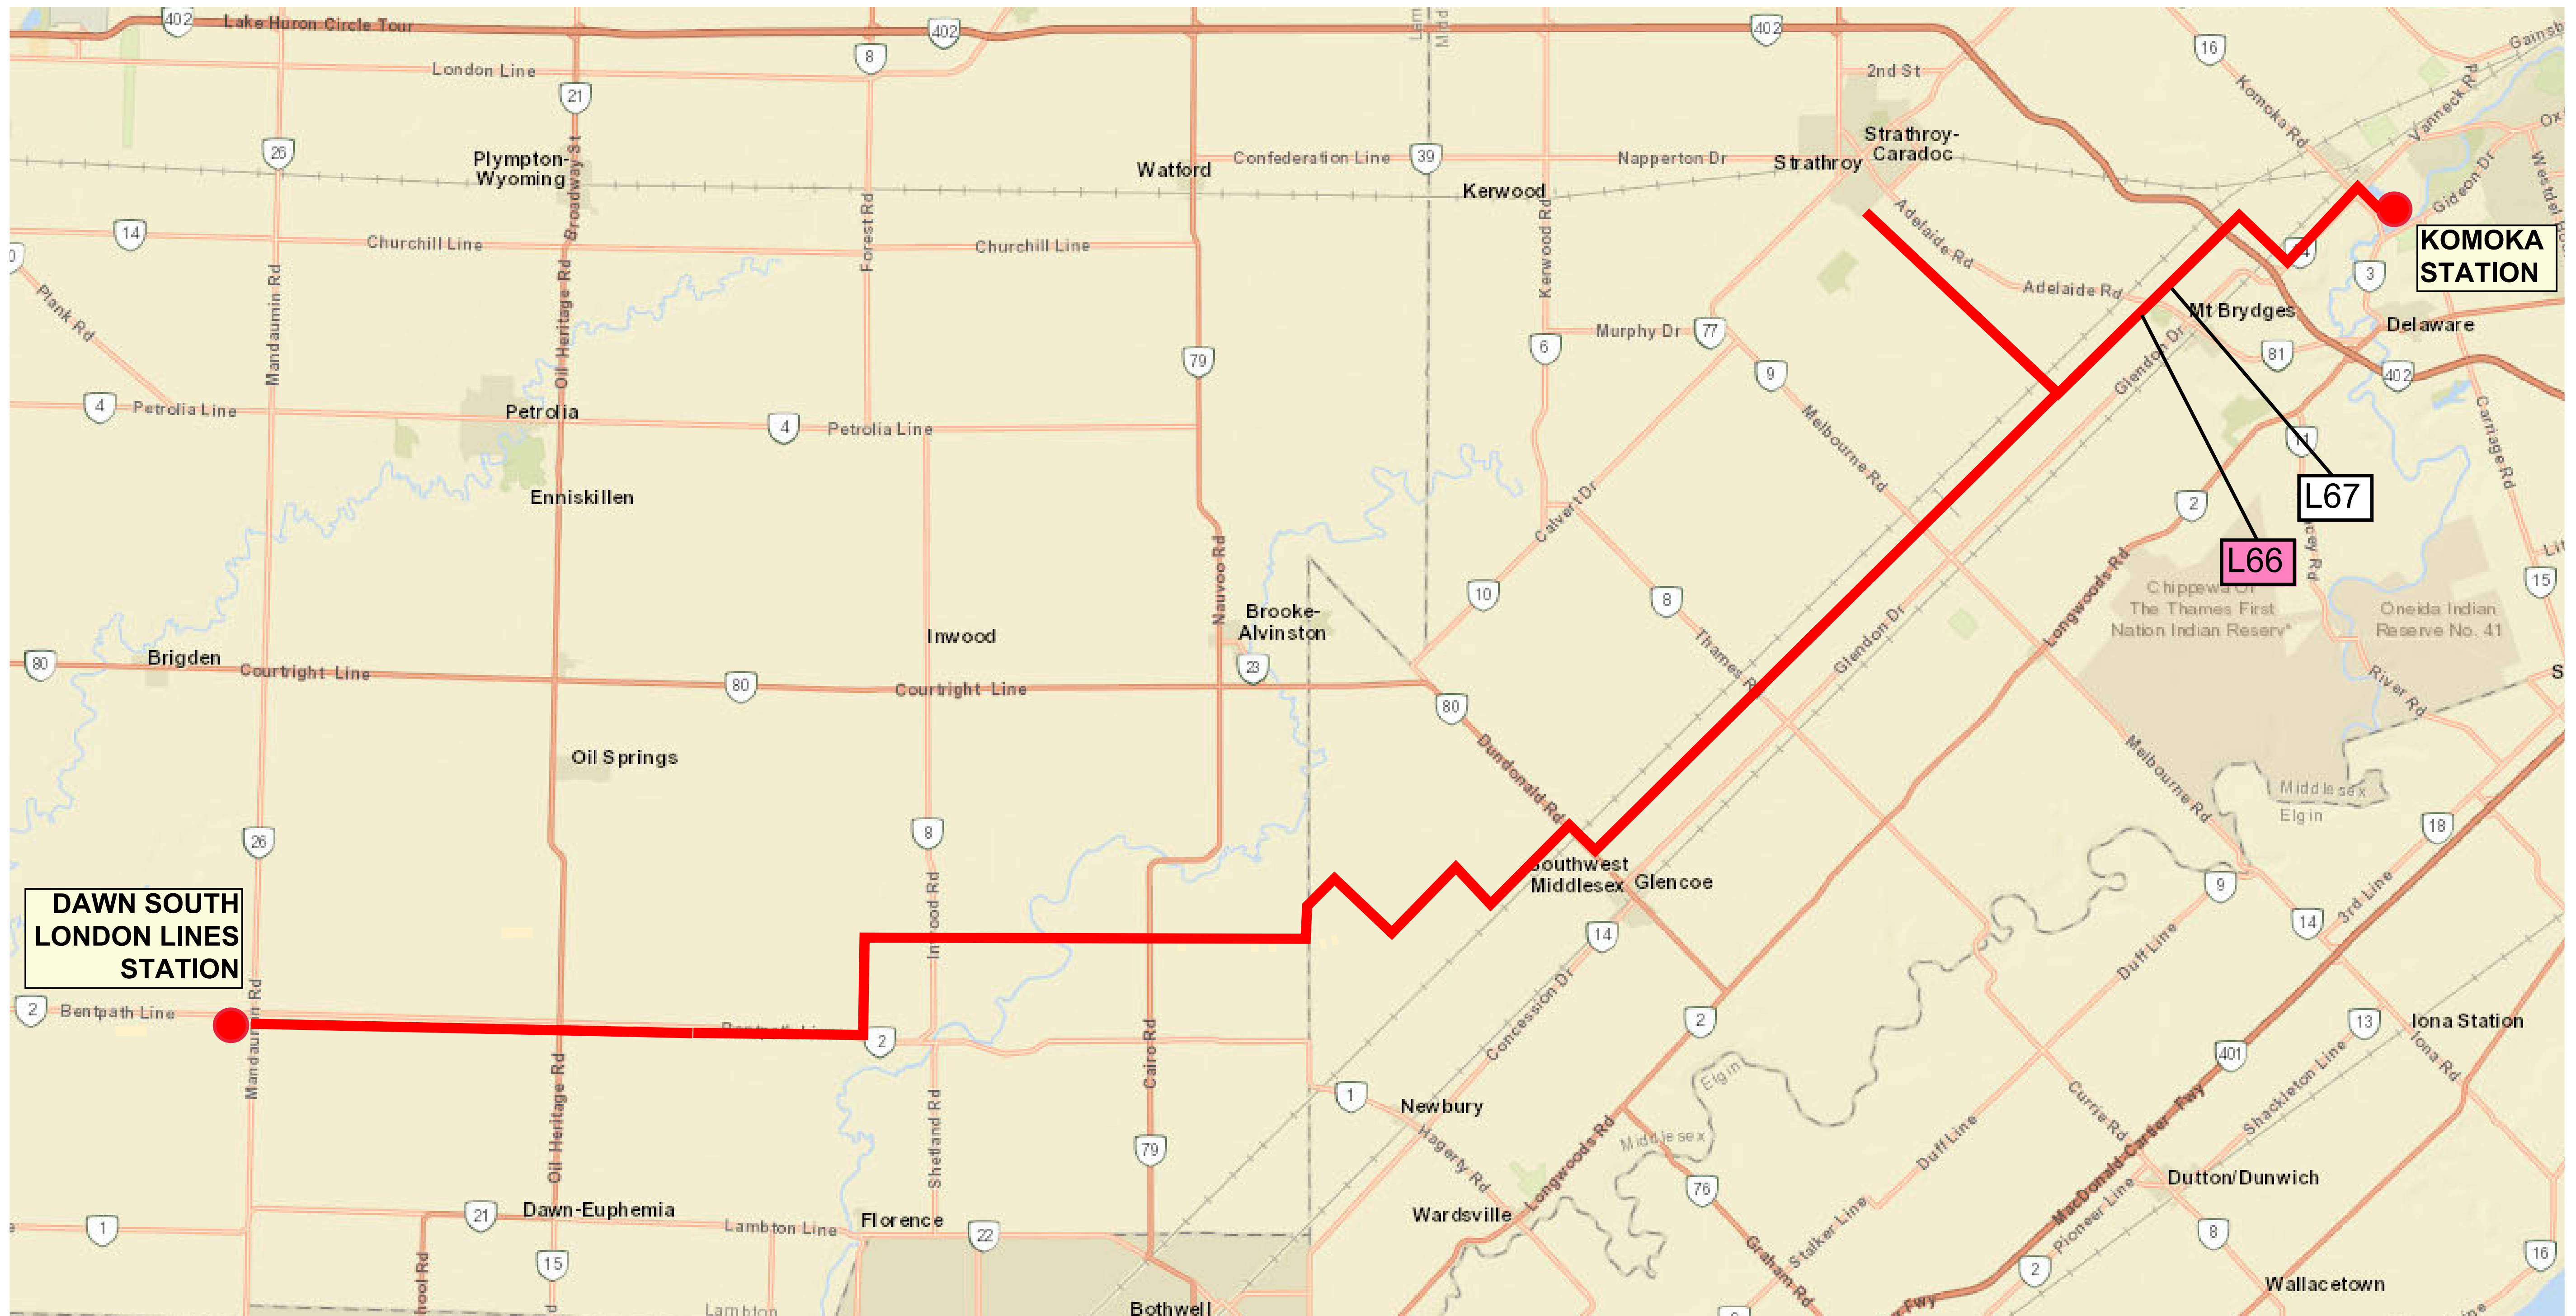

### **Attachments**

Attachment 1 – Change Request Form.

Attachment 2 – Map to show an overview of the project area and the general location of the affected lands (L66 & L67).

Attachment 3 – Updated Landowner Line List showing the land right changes in red text and yellow highlighted rows.

Attachment 4 – Updated Proposed Pipeline Location Maps showing the total set of land right areas. New land rights have been highlighted with a bright blue shade. Existing land rights are shown in green hatching for temporary land and red for permanent easements or land purchases.
