I am against this application, it will increase the electricity bill for those who care to save and add a minimum monthly \$35 to each monthly bill, I understand since Hydro one became a public company looking to adjust their rate realistically but using this method, put the pressure on the majority of the family of 4-5 with house size of 2000 to 2500 sqft ft and annual usage of 6000 to 7000 Kwh. average 15-20% increase annually is too much
