To whom it may concern

I'm writing this letter to voice my concern and outrage that Hydro one wants to increase rates. The general public already pays enough and struggle to keep the lights and heat on. Maybe consider taking it from the top, your CEO does not need another pay raise. The men and women that work the lines I agree deserve a decent wage as their job is very dangerous but the ones that sit in offices and never out in the real world do not.

Please reconsider this and the damaging financial effect that you will have on the community as a whole.
