To whom this may concern:

My name is Darrell Acreman and I have been a home owner since 1997. Over the years I have seen increase after increase with no care in the world about the people who get services from Ontario Hydro.

I received an email of notice to have rates increased as they have applied to the Energy Board. If I understand correctly, it means almost doubling our rates each year. The general public can not afford these rate increases. We are way over charged now as it is and we are trying to keep what we have since Covid started. Not everyone was fortunate to still work through all of this and any increase is seen as price gouging.

The business sector has made a huge profit and continue to do so at our expense. Corporate greed has gone on long enough and I hope the Energy Board will decline such attempts in rate increases.  
Yours sincerely;

Darrell Acreman
