

Ms. Christine Long  
OEB Registrar  
Ontario Energy Board  
P.O. Box 2319, 27th Floor  
2300 Yonge Street  
Toronto, ON M4P 1E4

September 13, 2021

**EB-2021-0110 – Hydro One Network Inc. Custom IR Application (2023-2027)  
Pollution Probe Intervenor Request**

Dear Ms. Long:

Pollution Probe is in receipt of the notice for the above noted proceeding and hereby applies for Intervenor status and requests that it be eligible for the recovery of reasonably incurred costs for its participation.

**Goals and Objectives**

Pollution Probe represents the direct interests of consumers and an interest and policy perspective relevant to the Board's mandate in this proceeding. Pollution Probe also coordinates with impacted consumers, communities and related stakeholders in a manner that provides a consolidated opportunity to participate in this proceeding. Pollution Probe is a frequent intervenor in Board proceedings and a copy of the current Annual Filing can be found on the Board's website at the following location:

<https://www.rds.oeb.ca/CMWebDrawer/Record/724793/File/document>

This proceeding considers the first joint distribution and transmission application by Hydro One Network Inc. (Hydro One). Pollution Probe intends to participate in all aspects of this proceeding. Based on the review of the application, the primary areas of focus include the distribution and transmission capital plan, 2023-2027 rates, customers service objectives, policy objectives, creation and clearance of deferral accounts and consumer impacts resulting from the proposed application.

**Intention to Seek Cost Awards**

Pollution Probe is a not-for-profit charitable organization. We receive individual donations as well as funding for consumer and research projects, such as on community energy planning, future of natural gas and regulated utility innovation, from a variety of public and private sources. Without the prospect of an award of costs, Pollution Probe's ability to participate in the consultation process would not be possible. Pollution Probe has been an active and valuable participant in proceedings before the Ontario Energy Board and will continue to coordinate its activities, where appropriate, with other parties which represent consumer, community and environmental interests in Ontario.

Pollution Probe respectfully requests your acceptance of this request to participate and confirmation that it will be eligible for its costs.
