Dear Ms. Long,

**Re: Hydro One Networks Inc., 2023-2027 Joint Distribution and Transmission Rates
Application, EB-2021-0110
Intervenor Request**

On September 1, 2021, ENWIN Utilities Ltd. ("ENWIN") received notice from Hydro One Networks Inc. ("Hydro One") to advise that Hydro One had applied to the Ontario Energy Board ("OEB") for approval of a plan to set the amount it charges for using its transmission system and the amount it charges for electricity distribution in each of five years beginning on January 1, 2023 and ending on December 31, 2027 (the "Application").

As an electricity distributor, ENWIN and its customers are directly impacted by Hydro One's costs to transmit electricity. Therefore, further to the notice received September 1, 2021, ENWIN is hereby writing to request intervenor status to remain fully informed of the Application and to preserve the opportunity to participate as necessary. ENWIN is not eligible for costs under the *Ontario Energy Board Act, 1998* and will not be requesting same.

ENWIN's contact for the Application will be the undersigned.

Sincerely,

ENWIN Utilities Ltd.
