Re: EB-2021-0110 Hydro One Networks Inc. 2023-2027 Joint Transmission & Distribution Rate Application
AMPCO's Letter of Intervention

Dear Ms. Long:

I am writing pursuant to the Board's Notice of Application and Hearing in regards to the above proceeding to request intervenor and cost eligibility status.

AMPCO's Interest

AMPCO is a not-for-profit consumer interest advocacy organization. AMPCO's members represent Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general. AMPCO members are major investors, major employers and a major part of communities in which we operate, across Ontario.

AMPCO and its member companies are well known to the Board. AMPCO participates in many proceedings, working groups, consultations and initiatives of the Ontario Energy Board in which matters relevant to Ontario's large electricity consumers are being addressed. AMPCO has previously been approved by the Board in numerous Hydro One Networks Inc. proceedings including HONI's previous Transmission and Distribution applications, EB-2019-0082 and EB-2017-0049, respectively.

AMPCO's interest in the Board's regulation of distribution and transmission companies relates generally to the interests of consumers with respect to price, adequacy, reliability, affordability and quality of electricity service, and, more particularly, to how costs are allocated to, and rates are designed to recover costs from, industrial customers.

AMPCO is intervening in order to ensure that consumer interests, and in particular the interests of its members and industrial customers, are fully represented in the determination of just and reasonable transmission and distribution rates.

AMPCO intends to generally review the major cost drivers, and any other areas that are relevant to its members' interests. AMPCO intends to be active in all key aspects of the proceeding including interrogatory preparation, technical conference, settlement conference, electronic or oral hearing and argument, as required.

Specifically, AMPCO is interested in reviewing the following: Planning Framework, Business Plan, Asset Needs Assessment, Reliability Trends, Transmission System Plan, Distribution System Plan, OM&A Cost Drivers, Customer Engagement, Productivity Framework, Performance Measurement, Custom IR Proposal, Load Forecast, and Transmission and Distribution Rate Design.

We respectfully request that the Board please confirm AMPCO's eligibility for an award of costs in this matter.

Notice

Please serve all correspondence pertaining to this proceeding to AMPCO's consultant as follows:
