RE: EB-2021-0110: Hydro One Networks Inc. 2023-2027 Joint Distribution
and Transmission Rates Application – Letter of Request for Intervention

I have received a Notice of Hearing of August 19, 2021, regarding EB-2021-0110 in the matter of Hydro One Networks Inc. 2023-2027 Joint Distribution and Transmission Rates Application.

The Notice indicates that the Ontario Energy Board's decision on the transmission portion of this application will have an effect on all electricity consumers in Ontario while the decision on the distribution portion of the application will have an effect on distribution customers of Hydro One Networks Inc.

I am currently an active intervenor in the EB-2020-0246 proceeding re the Implementation of the Ontario Energy Board's Decision on the Elimination of the Hydro One Networks Inc. Seasonal Rate Class.

Kindly accept this as a letter of request for intervention in Hydro One Networks Inc. 2023-2027 Joint Distribution and Transmission Rates Application. I am requesting intervenor status in this matter since the Notice of August 19, 2021, states that: "Seasonal Rates are being considered in a separate proceeding (EB-2020-0246), but are expected to be implemented in this proceeding." I wish to continue to participate as an intervenor by raising questions and commenting as appropriate on matters relating to the Seasonal Rate Class through to their fruition by way of the decisions to be reached by the Ontario Energy Board in Hydro One Networks Inc. EB-2021-0110 Application.

To address the Ontario Energy Board's additional requirements of intervenors, I also provide the following information. Firstly, I do not intend to seek an award of costs in this

matter. Secondly, I am not a member of any interest group, association or other organization relevant to this matter, nor do I represent any such group, association or organization.

Thank you in advance for your consideration of this request.
