Dear Ms. Long:

**Re: Hydro One Networks Inc. (Hydro One)
2023-2027 Transmission and Distribution Rates (Joint Rate Application)
Board File No: EB-2021-0110**

The Independent Electricity System Operator (IESO) is in receipt of the Ontario Energy Board (OEB) Notice of the above noted joint rate application and is writing to request intervenor status in the OEB proceedings of this application.

The IESO is responsible for maintaining and administering the Ontario wholesale electricity markets, and directing the operation and maintaining reliability of the IESO-controlled grid. The IESO also has the mandate to ensure the adequacy and efficiency of electricity supply in the province through planning of electricity supply and forecasting demand. It directs the operation of generation and transmission facilities, including interconnection facilities that are situated in Ontario.

The IESO has provided evidence in this application which Hydro One filed under Section H – Cost Allocation and Rate Design for Uniform Transmission Rates: Exhibit H, Tab 9, Schedule 1, Attachment 3 (Market Implications of the Export Transmission Service Rate – IESO, dated: July 2021). As such, the IESO has an interest in this application.

Specifically, the IESO may make written submissions or participate in any hearings, as required. The IESO is not eligible for, and will not be seeking cost awards for its participation in this proceeding. Please address all correspondence and materials filed to the attention of George Dimitropoulos, Senior Regulatory Advisor at 416-969-6269 or by email at RegulatoryAffairs@ieso.ca

Yours truly,

Devon Huber
Acting Director, Regulatory Affairs & Market Rules
