Hello: I am unable to attend the hearing due to the fact I work for a living in Ottawa. I find this decision by Enbridge to be absolutely despicable. I believe they are requesting this disgusting increase because they are afraid of the lower prices predicted by the market. If this company was run properly it would be prepared for the ups and downs of the market. Such as having enough cash flow available to offset any lows that may occur. Obviously this company is either unprepared or not being managed properly. I find this request is yet again dumped on the back of low to mid income earners such as myself.

If you decide to allow this outrageous increase, it shows you are in the pockets of companies that should know better. Living in Ontario in the winter is a hard task for anyone but to allow Enbridge to increase their delivery charge is ridiculous. They do not have to pay a driver and lease trucks to deliver the gas unlike an oil company, their delivery system is in place.

I will certainly be dismayed if you allow this increase to go through. But unfortunately my heart tells me you will cave into their demands at the cost of the average home owner in Ontario.

Yours truly,

C Guthrie
Enbridge customer
