**EB-2021-0243 - Generic Proceeding on Uniform Transmission Rates (UTR) and the
Export Transmission Service (ETS) Rate
Pollution Probe Letter**

In Procedural Order No. 1 (EB-2021-0110), the OEB indicated its decision to commence a separate generic proceeding to review a number of issues related to Uniform Transmission Rates (UTR). The OEB further advised that it is appropriate to deal with the Export Transmission Service (ETS) rate as part of this separate generic proceeding. As requested by the OEB, Pollution Probe hereby confirms its request for Intervenor status in this proceeding and requests that it be eligible for the recovery of reasonably incurred costs for its participation. This is separate and complimentary to Pollution Probe's continued participation in EB-2021-0110.

Goals and Objectives

Pollution Probe represents the direct interests of consumers and an interest and policy perspective relevant to the Board's mandate in this proceeding. Pollution Probe also coordinates with impacted consumers, communities and related stakeholders in a manner that provides a consolidated opportunity to participate in this proceeding. Pollution Probe is a frequent intervenor in Board proceedings and a copy of the current Annual Filing can be found on the Board's website at the following location:

<https://www.rds.oeb.ca/CMWebDrawer/Record/724793/File/document>

Intention to Seek Cost Awards

Pollution Probe is a not-for-profit charitable organization. We receive individual donations as well as funding for consumer and research projects, such as on community energy planning, future of natural gas and regulated utility innovation, from a variety of public and private sources. Without the prospect of an award of costs, Pollution Probe's ability to participate in the consultation process would not be possible. Pollution Probe has been an active and valuable participant in proceedings before the Ontario Energy Board and will continue to coordinate its activities, where appropriate, with other parties which represent consumer, community and environmental interests in Ontario.

Pollution Probe respectfully requests your acceptance of this request to participate and confirmation that it will be eligible for its costs.

Notice

Pollution Probe requests only electronic copies of materials and that further communications with respect to this matter be sent to:
