Dear Ms. Long:

**Re: Board File No. EB-2021-0110 / EB-2021-0243
Ontario Power Generation Inc.'s Intervention Status**

On September 17, 2021, the Ontario Energy Board issued Procedural Order No. 1 in EB-2021-0110. The first order was for intervenors in the EB-2021-0110 proceeding to indicate whether they intend to participate in a generic proceeding on UTR-related issues and the ETS rate (EB-2021-0243). By way of this letter, Ontario Power Generation Inc. is indicating its intention to participate in EB-2021-0243 and to continue participating in EB-2021-0110.

If there are any questions with respect to this notice, please do not hesitate to contact me.

Yours truly,

Matt Kirk
