Dear Ms. Long:

Re: EB-2021-0110, Hydro One Networks Inc. ("HONI") Application for Transmission and Distribution Rates and Other Charges – Generic Proceeding on Treatment of UTR Related Issues and ETS Rate (EB-2021-0243)

Pursuant to Procedural Order No. 1 in the EB-2021-0110 proceeding issued by the Ontario Energy Board on September 17, 2021, this is to advise that the Quinte Manufacturers Association ("QMA") does not intend to participate in the separate generic proceeding (EB-2021-0243) on UTR-related issues and the ETS rate. The QMA will monitor that proceeding and will continue with its active participation in the EB-2021-0110 proceeding as an approved intervenor.

Respectfully,

Michael McLeod
for
Quinte Manufacturers Association
