**EB-2021-0110 – Hydro One Network Inc. Custom IR Application (2023-2027)
Pollution Probe Submission on Blue Page Update**

Dear Ms. Long:

Pollution Probe is in receipt of Procedural Order No. 1 requesting submissions from parties related to a blue page update. Pollution Probe supports a blue page update or an equivalent process to ensure that updated information is available to all parties and that these updates can be easily found and referenced. Without such a process it is very likely that future discussions, submissions and argument could refer to outdated information. Pollution Probe is open to the timing and process that the OEB determines the most suitable to achieve these goals.

Respectfully submitted on behalf of Pollution Probe.

Michael Brophy, P.Eng., M.Eng., MBA
