Toronto, ON M4P 1E4

October 4, 2021

**Re: EB-2021-0107 – Hydro One Kirkland Lake Leave to Construct  
Pollution Probe Intervention Request**

Dear Ms. Long:

Pollution Probe is in receipt of the notice for the above noted proceeding and hereby applies for intervenor status and requests that it be eligible for the recovery of reasonably incurred costs for its participation. Pollution Probe has been an active participant in facility proceedings, including Leave to Construct applications. Pollution Probe represents the direct interests of consumers and an interest and policy perspective relevant to the Board's mandate in this proceeding. Pollution Probe also works collaboratively with organizations including the Clean Air Partnership, which also represents consumers and communities.

Pollution Probe is a frequent intervenor in Board proceedings and a copy of the current Annual Filing can be found on the Board's website at the following location:

<http://www.rds.oeb.ca/HPECMWebDrawer/Record/687123/File/document>

**Goals and Objectives**

Pollution Probe intends to participate in all aspects of this proceeding with a focus on the following:

- Project need, scope, alternatives, (net) cost, quantitative/qualitative benefits and consideration of system planning over the life of the proposed assets.
- Costs, benefits and impacts related to the proposed project and relevant policy considerations including integrated resource planning and support of local distributed energy resources.

**Intention to Seek Cost Awards**

Pollution Probe is a not-for-profit charitable organization. We receive individual donations as well as funding for consumer and research projects, such as on community energy planning, future of natural gas and regulated utility innovation, from a variety of public and private sources. Without the prospect of an award of costs, Pollution Probe's ability to participate in the consultation process would not be possible. Pollution Probe has been an active and valuable participant in proceedings before the Ontario

Energy Board and will continue to coordinate its activities, where appropriate, with other parties which represent consumer, community and environmental interests in Ontario.

**Notice**

Pollution Probe requests that further communications with respect to this matter be sent to:

Michael Brophy
