Dear Don Herweyer:

**Re: Enbridge Gas Inc.
Updated Application for Leave to Construct the St. Laurent Ottawa North
Replacement Project
Ontario Energy Board File (OEB) Number: EB-2020-0293**

This letter is in response to your letter of comment, dated May 12, 2021, in respect of Enbridge Gas's application for leave to construct the St. Laurent Project. Your letter of comment will be forwarded to the OEB Panel that will decide this application.

As you are aware, on May 5, 2021, the OEB had placed Enbridge Gas's original application in this matter, filed on March 2, 2021, in abeyance pending resolution of certain routing issues that were raised by the Ministry of Transportation. On Sept 10, 2021, Enbridge Gas informed the OEB that it had resolved the routing issues by modifying a segment of the route and filed an updated application with the OEB. The OEB has now issued a Notice of Hearing in respect of the updated application. If you wish to participate in the OEB's hearing, please review the OEB's Notice of Hearing for information on how to apply for intervenor status. The OEB's Notice of Hearing and Enbridge Gas's updated application are available on the OEB's website at: [Content Manager WebDrawer - Search Results \(oeb.ca\)](#)

Please contact me if you have questions in relation to Enbridge Gas's application or the process for applying for intervenor status.

Yours truly,
