Mr. Jay Shepherd
Counsel, School Energy Coalition
Shepherd Rubenstein Professional Corporation
2200 Yonge Street, Suite 1302
Toronto, ON M4S 2C6

Dear Mr. Shepherd:

**Re: Enbridge Gas Inc. (Enbridge Gas)
Updated Application for Leave to Construct the St. Laurent Ottawa North
Replacement Project
Ontario Energy Board File (OEB) Number: EB-2020-0293**

The OEB acknowledges receipt of your letter dated April 21, 2021, requesting intervenor status and cost eligibility in Enbridge Gas's application for leave to construct the St. Laurent Ottawa North Replacement Project.

On May 5, 2021, the OEB placed Enbridge Gas's original application in this matter, filed on March 2, 2021, in abeyance pending resolution of certain routing issues that were raised by the Ministry of Transportation. On Sept 10, 2021, Enbridge Gas informed the OEB that it had resolved the routing issues by modifying a segment of the route and filed an updated application with the OEB. The OEB has now issued a Notice of Hearing in respect of the updated application. The OEB's Notice of Hearing and Enbridge Gas's updated application are available on the OEB's website at: [Content Manager WebDrawer - Search Results \(oeb.ca\)](#)

This is to inform you that you do not need to reapply for intervenor status and cost eligibility in relation to Enbridge Gas's updated application. The OEB will treat your letter dated April 21, 2021, as your request for status in the updated application. However, if you wish to update your earlier intervention and cost eligibility request, you must file your updated request by **October 15, 2021**, which is the last date for applying for

intervenor status. The OEB will make its decision on your request after the period for applying for intervenor status and cost eligibility has closed.

Yours truly,

Original Signed By

Christine E. Long
