Dear Ms. Long:

**Re: Enbridge 2022 to 2027 Demand Side Management (“DSM”) Plan  
EB-2021-0002**

I am writing on behalf of Environmental Defence to reply to the letter received from Enbridge today in response to our request of October 26, 2021 for a brief extension of the deadline to submit intervenor evidence.

Enbridge raises concerns about the overall procedural schedule. However, Enbridge sought and was granted a two-week extension to file its revised application even though it was mechanical in nature. Enbridge also could have filed its DSM application earlier. Enbridge cannot now turn around and oppose intervenors seeking only a very brief extension to prepare evidence.

If the schedule cannot be adjusted, Environmental Defence requests that Enbridge be directed to respond to the interrogatories of Environmental Defence by November 5, 2021. This would be 10 days prior to the current deadline and would reflect the fact that Environmental Defence filed its interrogatories 10 days early. We note, however, that this would not address the request from BOMA for a modest extension of the deadline.

Thank you for considering this request.

Yours truly,

Kent Elson
