Dear Ms. Long

Re: Nomination to Green Button Implementation Working Group (EB-2021-0183)

Elexicon Energy Inc. ("Elexicon") is pleased to nominate Ms. Eva Szatmari, Elexicon's Acting Manager Operations Technology and Innovation, to participate in the Green Button Implementation Working Group referenced in the Board's October 12, 2021 letter.

Elexicon is the fourth largest municipally owned electricity distributor in Ontario and operates a geographically dispersed distribution network serving more than 168,000 urban, suburban and rural customers over an area of 787 square kilometres.

Ms. Eva Szatmari holds a Master of Spatial Analysis degree and Master of Electrical Engineering. She leads and participates in large, complex and innovative projects to utilize GIS tools and other operational technologies to create efficiencies across the organization.

She has experience in reliability analysis integration in a spatial framework, and the application of various IEEE and other mathematical models to asset data for supporting asset health assessments, and customer analytics for planning and decision making.

Ms. Eva Szatmari has experience supporting third party and in-house developed applications, integration of CIS, AMI with OMS, distribution management systems (DMS), web mapping applications, and real-time operational dashboards.

Her engineering training, interest in spatial data analytics, demonstrates that spatial technology is fundamental to the engineering profession. Her passion for creativity and innovation leads to operational excellence, digital transformation across the organization, and modernization of the utility.

Elexicon believes that Ms. Szatmari's education and experience qualifies her for a position on the OEB's Green Button Implementation Working Group.
