

November 16, 2021

Ms. Christine E. Long  
Registrar  
Ontario Energy Board  
2300 Yonge Street, 27th floor  
Toronto, ON M4P 1E4

Dear Ms. Long:

**Re: Algoma Power Inc. ("API") 2022 IRM Application (EB-2021-0006)  
API Reply Submission**

---

In accordance with the October 6, 2021 Procedural Order #1, API is providing its reply submission.

As part of its submission, OEB staff provided an updated RRRP adjustment factor of 3.28%, updating thing API's placeholder of 0.8%. OEB staff also provided an updated rate design model with the updated RRRP adjustment factor and requested that API review and confirm the methodology used in its reply submission. API confirms the methodology used to update the rate design model with the updated RRRP adjustment factor is correct.

Board staff made detailed submissions on 2022 Rate Design and RRRP Adjustment, Group 1 Deferral and Variance Accounts, and the Advanced Capital Module. CNPI has no concerns with OEB Staff submissions or comments on these matters, other than to note that OEB staff had no concerns.

Sincerely,

Trevor Wilde, P.Eng., MBA  
Manager, Regulatory Affairs
