Re: OEB Reliability and Power Quality Review  
AMPCO Request for Eligibility for Costs  
Board File No. EB-2021-0307

Dear Ms. Long:

I am writing pursuant to the Ontario Energy Board's (OEB) Notice dated November 30, 2021 regarding the above proceeding to request participant status and eligibility for cost awards.

#### **AMPCO's Interest**

AMPCO is a not-for-profit consumer interest advocacy organization. AMPCO's members represent Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general. AMPCO members are major investors, major employers and a major part of communities in which we operate, across Ontario.

AMPCO's interest in the OEB's regulation of the electricity sector relates generally to the interests of consumers with respect to price, adequacy, reliability and quality of electricity service, and, more particularly, to how costs are allocated to, and rates are designed to recover costs from, industrial customers.

AMPCO and its member companies are well known to the OEB. AMPCO participates in many proceedings, working groups, consultations and initiatives of the OEB in which matters relevant to customers and Ontario's large electricity consumers are being addressed. AMPCO has previously been approved by the OEB as eligible for cost awards in relation to proceedings and consultations that impact the electricity sector.

AMPCO is interested in participating in the above comprehensive review in order to provide a general perspective on the changing dynamics of reliability and power quality and to provide a view on the possible need for new approaches to assess reliability and power quality and its resulting impact on customers, particularly large industrial customers.

We respectfully request that the OEB please confirm AMPCO's eligibility for an award of costs in this matter.

## Notice

Please serve all correspondence pertaining to this proceeding to AMPCO 's President and consultant as follows:
