Our File: EB20210110

**Attn: Christine Long, Registrar**

Dear Ms. Long:

**Re: EB-2021-0110 – Hydro One Joint Rate Application – Technical Conference**

We are counsel to the School Energy Coalition (“SEC”). Pursuant to Procedural Order No.1, below is the list of topics of interrogatories that SEC will be seeking clarification on at the Technical Conference. While SEC is also providing time estimates as required by the Procedural Order No.1, considering the number of responses, and that they were only filed a week ago, these should be considered highly preliminary. We will update OEB Staff throughout the week as we continue our review.

1. General matters, rate framework (35 minutes)
2. Econometric benchmarking (60 minutes)
3. System Plan Framework , including productivity framework (30 minutes)
4. Transmission System Plan (90 minutes)
5. Distribution System Plan (90 minutes)
6. General System Plan (30 minutes)
7. OM&A (Distribution, Transmission, Common) (45 minutes)
8. Compensation (30 minutes)
9. Rate Base, Depreciation, Cost of Capital and other components of the revenue requirements (10 minutes)
10. DVAs (15 minutes)
11. Cost Allocation and rate design, including the new acquired classes (60 minutes)

Yours very truly,  
**Shepherd Rubenstein P.C.**
