Pursuant to Procedural Order No. 1 dated September 17, 2021, please note that the Ontario Sustainable Energy Association ("OSEA") will focus on the following areas at the Technical Conference:

- ◆ CDM activities and deployment to address local distribution system needs
- ◆ Anticipated deployment of non-wires solutions to meet power system needs (transmission and distribution)
- ◆ Potential form and format of reliability contracts/service agreements with third party developers, and
- ◆ Integration of community energy plans/energy efficiency with HONI distribution system plans.

OSEA estimates that it will require 30 minutes for questions at the Technical Conference.
