Dear Ms. Long:

**Re: OEB File No. EB-2021-0048**  
**Oakville Hydro Electricity Distribution Inc. Application for 2022 Rates**

On December 2, 2021, the Ontario Energy Board issued its Decision and Rate Order on Oakville Hydro Electricity Distribution Inc.'s (Oakville Hydro) Incentive Rate-setting Mechanism application for rates effective January 1, 2022.

Oakville Hydro has reviewed the Tariff of Rates and Charges in Schedule A to the Decision and Rate Order and found that, due to the transposition of kWh and kW for one Class A customer in the rate generator model, the Class B Rate Riders for the disposition of the Capacity Based Recovery Account 2022 were incorrect. Oakville Hydro has made the necessary adjustments to the rate generator model and filed a live version of the model through the Regulatory Electronic Submission System (RESS).

Respectfully submitted,
