Dear Christine Long:

**Re: Enbridge Gas Inc.
Ontario Energy Board File: EB-2020-0293
St. Laurent Ottawa North Replacement Project – Interrogatory Responses**

Pursuant to the OEB's Procedural Order No.2, enclosed please find interrogatory responses from Enbridge Gas Inc. ("Enbridge Gas" or the "Company") in the above noted proceeding.

In accordance with the Ontario Energy Board's ("OEB") revised Practice Direction on Confidential Filings effective February 17, 2021, all personal, privileged and commercially sensitive information has been redacted from the following exhibits:

- **Exhibit I.STAFF.19, Attachment 1 – Updated Indigenous Consultation Log**
The redactions relate to the names and personal information of third-parties. This information should not be disclosed in accordance with the Freedom of Information and Protection of Privacy Act. As well, such information is not relevant for the purposes of this Application. Pursuant to the OEB's Practice Direction on Confidential Filings ("Practice Direction") at section 4.3, such information should not be provided to parties to a proceeding.
- **Exhibit I.FRPO.18 a) vi) & vii) – Specific Contract Parameters**
The redactions relate to the details of the Company's contract for Gas Transportation and Sale with Gazifere Inc. which are commercially sensitive as their disclosure could disadvantage the customer. Additionally, the contract information is not necessary in order to address FRPO's request of comparing alternatives to the section of pipeline that needs to be replaced with NPS 16 pipe. On the balance the harm from the disclosure does not outweigh the little probative value of the of providing the contract demand for comparing alternatives.

The confidential unredacted exhibits will be provided to the OEB under separate cover.
