Ms. Nancy Marconi  
Acting Registrar  
Ontario Energy Board  
2300 Yonge Street, Suite 2700  
Toronto ON M4P 1E4

Dear Ms. Marconi:

**Re: EB-2021-0243 – Generic Hearing on Uniform Transmission Rates-Related Issues and the Export Transmission Service Rate**

---

Further to the OEB's Procedural Order No. 1 in the above-noted proceeding, Hydro One is writing to note one additional item the OEB may wish to add to the issues list.

Hydro One notes that the OEB required Hydro One to prepare an updated jurisdictional review of ETS rates in other jurisdictions (the "2021 Jurisdictional Review"). The OEB also required that the 2021 Jurisdictional Review be placed on the record of this proceeding. However, there is currently no specific issue on the issues list in relation to 2021 Jurisdictional Review. Below, Hydro One proposes an edit to the issues list to add this issue.

Immediately after the bold font statement of Issue 4, under the words "Considerations for input:", consistent with the approach under Issue 3, Hydro One proposes the following be added:

Background: Hydro One retained Charles River Associates (CRA) to prepare an updated jurisdictional review that provides the ETS rates in other jurisdictions, the rationale behind those rates and market implications (the "2021 CRA Jurisdictional Review"). The 2021 CRA Jurisdictional Review has been filed as part of this proceeding. It updates a study that was prepared by CRA for the IESO in 2012.

In addition, Hydro One proposes adding the following additional consideration for input under Issue 4:

4.5 How should the findings in the 2021 CRA Jurisdictional Review inform the continued reliance on an ETS rate to charge for export service and the setting of the ETS rate?
