Toronto, ON M4P 1E4

January 31, 2022

**EB-2022-0007 – 2020 DSM Deferral and Variance Account Disposition Application
Pollution Probe Intervenor Request**

Dear Ms. Marconi:

Pollution Probe received the notice and application from Enbridge for the above noted proceeding and hereby applies for intervenor status and requests that it be eligible for the recovery of reasonably incurred costs for its participation. Pollution Probe represents a direct consumer and policy interest related to this proceeding.

Pollution Probe is a frequent intervenor in Board proceedings including those related to DSM and a copy of our current Annual Filing can be found on the Board's website at the following location:

<https://www.rds.oeb.ca/CMWebDrawer/Record/724793/File/document>

Goals and Objectives

Pollution Probe intends to focus on the basis and amounts of the 2020 DSM Deferral and Variance Accounts requested for clearance. Pollution Probe intends to participate in all procedural elements including interrogatories, technical conferences, or settlement conference, as the Board may direct. Pollution Probe supports Enbridge's request for a written hearing.

Intention to Seek Cost Awards

Pollution Probe is a not-for-profit charitable organization. We receive individual donations as well as funding for consumer and research projects, such as on community energy planning, future of natural gas and regulated utility innovation, from a variety of public and private sources. Without the prospect of an award of costs, Pollution Probe's ability to participate in the consultation process would not be possible.

Pollution Probe has been an active and valuable participant in proceedings before the Ontario Energy Board and will continue to coordinate its activities, where appropriate, with other parties which represent consumer, municipal and environmental interests in Ontario.
