## 6.1 PROPOSED REVENUE REQUIREMENT

The 2023 Test Year Base Revenue Requirement represents the amount of revenue the utility must collect from its customers to cover its day-to-day operating costs, taxes, interest paid on debts owed to investors (in CHEI's case, cooperative members), and a deemed return (profit).

CHEI's 2023 revenue requirement is calculated to be \$1,165,281.

Table 1 - Test Year Revenue Requirement (RRWF Model) below originates from the OEB's Revenue Requirement Workform. It presents CHEI's proposed 2023 Test Year Revenue Requirement as calculated in the OEB's Revenue Requirement Work:

Particulars	Application
OM&A Expenses Amortization/Depreciation Property Taxes	\$753,157 \$180,507 \$ -
Income Taxes (Grossed up) Other Expenses Return	\$19,099 \$ -
Deemed Interest Expense Return on Deemed Equity	\$95,669 \$165,600
Service Revenue Requirement (before Revenues)	\$1,214,031
Revenue Offsets	\$48,750
Base Revenue Requirement (excluding Transformer Ownership Allowance credit adjustment)	\$1,165,281

#### Table 1 - Test Year Revenue Requirement (RRWF Model)

CHEI confirms that the OEB's 2022 Revenue Requirement Workform (RRWF) accurately reflects its' proposed rates for the 2023 Test Year, and therefore there is no requirement for the applicant to file its rate generator model.

The proposed revenue requirement proposes to yield a net income of \$165,600. The derivation of the income is shown at Table 2 – Utility Income (RRWF Model).

Table 3 – Statement of Rate Base (RRWF Model) shows the reconciliation between the return on deemed equity included in the revenue requirement.

#### Table 2 – Utility Income (RRWF Model)

## 6.1.1 Trend Analysis and Change from 2018 Cost of Service

Table 4 – Movement in Revenue Requirement from last COS (2018) below shows the movement from CHEI's 2018 board-approved revenue requirement to the 2023 proposed revenue

requirement, along with a high-level explanation of the changes from the 2018 Board Approved Cost of Service. A more in-depth description of the changes is presented in each component's respective Exhibits.

Rate Year and Particulars	Rev. Req.	Change from 2018	High-level explanation	Reference
2018 Board Approved Revenue Requirement	\$1,067,336			
OM&A Expenses		+ \$71,186	Increase in Operating expenses to reflect increases in	Exhibit 4
Unian Expenses		ι <i>φ</i> η,100	unplanned and inflationary costs.	
Depreciation Expense		+ \$18,351	Increase related to capital investments	Exhibit 2
Net Fixed Assets		\$884,842.56	Increase related to additional capital investments	
Working Capital Allowance		-\$12,107.58	Reduction in WCA as a result of lower Cost of Power	Exhibit 2
Rate Base		\$872,734.98	Movement in Rate (Asset) Base	
Regulated Return on Capital		\$12,476.91	Increase in Return on Capital due to increasing in deemed WACC from 2018 (5.32%) to 2023 (5.47%)	Exhibit 5
Grossed up PILs		\$15,022.63	Increase in PILs due to increase in Assets	Exhibit 6
Revenues Offsets		-\$19,091.60	Reduction (shown as positive) in Revenue Offsets.	Exhibit 6
Increase in Revenue Requirement	\$97,945.59			
2023 Revenue Requirement	\$1,165,281.27			

## Table 4 – Movement in Revenue Requirement from last COS (2018)

The following two tables, Table 5 – Trend in Revenue Requirement and Table 6 - Variance Analysis of Revenue Requirement, present CHEI's Revenue Requirement trend starting from the 2018 Board Approved year to the 2023 proposed Revenue Requirement. The year-over-year changes in CHEI's Revenue Requirement beginning from the 2018 Board Approved year through to the 2023 proposed Revenue Requirement.

Particular	Last Board Approved	2018	2019	2020	2021	2022	2023

Year over year change (\$)		-17,490.33	22,158.39	30,846.62	-9,173.38	30,923.53	31,507.37	97,945.59
Year over year change (%)		-1.64%	2.11%	2.88%	-0.83%	2.80%	2.78%	9.18%

Compound GR 1.75%

As illustrated in the above tables, the proposed revenue requirement for the Test Year (2023) is 9.18% higher than the 2018 Cost of Service Approved Revenue Requirement. This represents a modest 1.75% annual compound growth rate in revenue requirement between the 2018 Cost of Service Approved Revenue Requirement and the proposed 2023 Cost of Service Revenue Requirement.

Over the period 2018 actual to the 2023 Test Year, CHEI's OM&A annual compound growth rate has been 1.75%, well below the inflation rate.

The regulated return on capital which increased by 12.5k, is explained in Exhibit 5.

# 6.2. OPERATION, MAINTENANCE & ADMINISTRATION COSTS (REF: EXHIBIT 4)

The OM&A variance between 2018 to 2023, which increased by 71K, is summarized below, and details are presented throughout Exhibit 4.

## **6.3 DEPRECIATION EXPENSES (REF: EXHIBIT 2)**

The depreciation expense has increased proportionately with the increase in net fixed assets. Details of historical capital expenses and their related depreciation expenses are summarized below and are presented in detail in Exhibit 2.

## 6.4 RETURN ON CAPITAL (REF: EXHIBIT 5)

The regulated return on capital, summarized below, which increased by 15K, is explained in Exhibit 5.

## 6.5 TAXES & PAYMENTS IN-LIEU OF TAXES (PILS)

CHEI has used the OEB PILs Tax Work Form model to calculate the amount of taxes for inclusion in its 2023 rates. PILs have been computed under MIFRS accounting policies. CHEI's external auditor BDO completed the PILS model to ensure that the current and proposed tax rates have been applied, that the amount of PILS calculated appears reasonable, and that the integrity checks established in the Boards Minimum Filing Requirements have been adhered to.

CHEI is required to calculate payment in lieu of income taxes ("PILs") based on its taxable income for the Test Year of 2023.

CHEI notes that it does not pay property taxes as its office space is leased. Property Taxes on the distribution system is recored in OM&A.

CHEI files Federal/Provincial tax returns annually.

There have been no exceptional circumstances that would require specific tax planning measures to minimize taxes payable. There are no outstanding audits, reassessments, or disputes relating to the tax returns filed by CHEI.

There are non-utility activities included in CHEI's financial results. Therefore the amount of PILs payable is calculated accordingly in the proposed allowance to be included in the revenue requirement.

CHEI's PILs are projected to be in the amount of \$19,099.

The income tax sheet from the OEB's Revenue Requirement Work form is presented in Table 7 - Tax Provision for the Test Year (OEB PILs Model) below, and the PILs model is being filed in conjunction with this application. The most recent federal and provincial tax returns are presented in Attachment 1 of this Exhibit.

Particulars	Application
Determination of Taxable Income	
Utility net income before taxes	\$165,600
Adjustments required to arrive at taxable utility income	(\$28,152)
Taxable income	\$137,448
Calculation of Utility income Taxes	
Income taxes	\$16,769
Total taxes	\$16,769
Gross-up of Income Taxes	\$2,330
Grossed-up Income Taxes	\$19,099
PILs / tax Allowance (Grossed-up Income taxes + Capital taxes)	\$19,099
Other tax Credits	\$ -
Tax Rates	
Federal tax (%) Provincial tax (%)	9.00%
Total tax rate (%)	12.20%

#### Table 7 - Tax Provision for the Test Year (OEB PILs Model)

CHEI is not claiming Apprenticeship Training Tax Credits.

CHEI confirms that it uses the stand-alone principle when determining PILs amounts.

✓ CHEI has exercised sound tax planning, and that for rate-setting purposes, it maximized tax credits and took the maximum deductions allowed if it made sense for the utility to do so.

- ✓ A copy of the most current Federal and Provincial taxes is presented in Attachment 1 of this Exhibit.
- ✓ Detailed calculations of Income Tax or PILs are shown in the OEB PILs model filed along with this application.
- There were no adjustments (e.g., Tax credits, CCA adjustments) for the Historical, Bridge, and Test Years, and as such, no supporting schedules and calculations and explanations for "other additions" and "other deductions" were required.

## 6.5.1 Non- Recoverable and Disallowed Expenses

CHEI confirms that expenses deemed non-recoverable in the revenue requirement (e.g., individual charitable donations) or disallowed for regulatory purposes have been excluded from the regulatory tax calculation.

## 6.5.2 Accelerated CCA

CHEI, with the assistance of its accounting firm BDO, has complied with the Accelerated Investment Incentive program, which provides for the first-year increase in CCA deductions on eligible capital assets acquired after November 20, 2018.

CHEI and BDO confirm that it has recorded the impact of the CCA rules changes in Account 1592 - PILs and Tax Variances – CCA Changes for November 21, 2018, up to 2023 Test Year. The worksheet showing the calculations of the entire revenue requirement impact is filed along with this application. The DVA model shows the full revenue requirement impact recorded in Account 1592.

CHEI acknowledges the OEB's practice with respect to the impact of changes in taxes due to regulatory or legislated tax changes during an incentive rate-setting period has been to share the impacts between distributor shareholders and ratepayers on a 50/50 basis. CHEI is proposing to dispose of 100%.

CHEI also understands that this practice may not apply concerning CCA rules; therefore, the utility proposes to dispose of its balances in the same manner as it disposes of its other deferral and variance accounts through the DVA rate rider mechanism.

CHEI is not proposing to smooth the impact of the CCA rules changes and disposition over the IRM period. The utility is proposing not to continue using Account 1592 going forward unless there are new changes to the CCA rules.

## 6.5.3 PILs Integrity Check

CHEI and its external auditors, BDO, confirm to the best of their knowledge that the following integrity checks have been completed in its application. In completing the PILs model, BDO confirms that;

- ✓ the depreciation and amortization added back in the application's PILs model agree with the numbers disclosed in the rate base section of the application;
- ✓ the capital additions and deductions in the UCC/ CCA Schedule 8 agree with the rate base section for historical, bridge, and test years;
- Schedule 8 of the most recent federal T2 tax return filed with the application has a closing December 31<sup>st</sup> historic year UCC that agrees with the opening bridge year UCC at January 1;
- ✓ The CCA deductions in the application's PILs tax model for historical, bridge, and test years agree with the numbers in the UCC schedules for the same years filed in the application;
- Loss carry-forwards, if any, from the tax returns (Schedule 4) agree with those disclosed in the application;
- $\checkmark$  CCA is maximized even if there are tax loss carry-forwards; and
- ✓ A statement is included in the application as to when the losses, if any, will be fully utilized.

## 6.6 OTHER REVENUE

Other Distribution Revenues are distribution-related revenues but are sourced from means other than distribution rates. For this reason, other revenues are deducted from CHEI's proposed revenue requirement.

Other Distribution Revenues includes items such as:

- Specific Service Charges
- Late Payment Charges
- Other Distribution Revenues
- Other Income and Expenses

A detailed breakdown of the related USoA account is shown in Table 8 – OEB Appendix 2-H on the next page.

Year-over-year variance analysis over the materiality threshold of \$10,000 follows at Section 6.1.3.1 - Other Revenue Variance Analysis.

## **6.1.1 Other Revenues Variance Analysis**

CHEI offers the following explanations for variances over \$10,000 or less than -\$10,000. There wer no noteworthy variances between 2018-2019, 2021-2022 and 2022-2023.

Table 9 - Variance Analysis of Other Operating Revenues below present year-over-year variances of other operating revenues:

#### Table 9 - Variance Analysis of Other Operating Revenues

Reporting Basis	CGAAP	CGAAP	Var Analysis	Var Analysis
	2018	2018	\$	%
USoA Description	Board Approved			
4240-Provision for Rate Refunds	\$20,000	\$0	-\$20,000	100.00%
4390-Miscellaneous Non-Operating Income	-\$5,500	-\$24,978	-\$19,478	354.14%
4405-Interest and Dividend Income	-\$2,000	-\$13,756	-\$11,756	587.79%
4360-Loss on Disposition of Utility and Other Property	\$0	\$10,481	-\$10,481	100.00%

#### 2018BA - 2018

#### 2018 Board Approved compared to 2018 Actual

#### • 4240-Provision for Rate Refunds:

CHEI has made an accounting change to remove incorrectly putting its refund to its cooperative members in account 4240. The refund back to its members has instead been moved to a more appropriate account, 3049-Dividends Payable.

#### • 4390-Miscellaneous Non-Operating Income:

The balances in this particular account increase as a result of a one-time refund of \$24,321 from the IESO. The reason for the refund was related to inventory overstock.

#### • 4405-Interest and Dividend Income:

When CHEI filed the 2018 Cost of Service, the assumption was that the utility would be financing more of the station project itself, which would have tied up more of the utility cashflow which in turn, would have minimized the interest income. In reality, the utility borrowed the entire amount needed for the station which resulted in more interest income.

#### • 4360-Loss on Disposition of Utility and Other Property:

The one-time increase is related to the disposal of poles, and other assets accounted for incorrectly in 2018-2019. The reason for the larger amount is that

BDO corrected the accounting error for both years in 2020. Table 10 - Variance Analysis of Other Operating Revenues. amounts in the table represent the incorrect amounts in 2018 and 2019 with a correcting adjustment in 2020. do the amounts in the table represent the incorrect amounts in 2018 and 2019 with a correcting adjustment in 2020

Reporting Basis	CGAAP	CGAAP	Var Analysis	Var Analysis
	2019	2020	\$	%
USoA Description				
4245-Government Assistance Directly Credited to Income	\$0	-\$10,000	-\$10,000	
4360-Loss on Disposition of Utility and Other Property	\$6,066	-\$28,405	-\$34,471	568.27%

#### 2019 Actual compared to 2020 Actual

#### • 4245-Government Assistance Directly Credited to Income:

The increase in \$10,000 is related to the one-time CEBA (Canada Emergency Business Account), a government-guaranteed loan to a maximum of \$40,000 to help eligible businesses with operating costs. Terms dictate that it is interest-free, and 25% (i.e., \$10,000) of the loan is eligible for loan forgiveness if 75% (i.e., \$30,000) has been fully repaid on or before December 31, 2022. The loan forgiveness of \$10,000 was booked in 2020.

#### • 4360-Loss on Disposition of Utility and Other Property:

The one-time increase is related to the disposal of poles and other assets. The larger amount in 2020 resulted from the correction of an accounting error in the two previous years.

#### Table 11 - Variance Analysis of Other Operating Revenues

Reporting Basis	CGAAP	CGAAP	Var Analysis	Var Analysis
	2020	2021	\$	%
USoA Description				
4245-Government Assistance Directly Credited to Income	-\$10,000	\$0	\$10,000	100.00%
4360-Loss on Disposition of Utility and Other Property	-\$28,405	\$0	\$28,405	100.00%

2020 – 2021

The variances in the above accounts result from the balances going back to their original levels after the one-time adjustments identified from 2019 to 2020.

## 6.6.2 Proposed Specific Service Charges

#### Table 12 – Proposed Specific Service Charge (2022 Tariff Sheet)

#### SPECIFIC SERVICE CHARGES

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of Ontario Energy Board, and amendments thereto as approved by Ontario Energy Board, which may be applicable to the administration of this schedule.

No charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of Ontario Energy Board, and amendments thereto as approved by Ontario Energy Board, or as specified herein.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

Customer Administration

Temporary service - installation and removal - underground - no transformer	\$	300.00
Temporary service - installation and removal - overhead - with transformer Specific charge for access to the power poles - per pole/year (with the exception	\$	1,000.00
of wireless attachments) - Approved on an Interim Basis	\$	44.50

CHEI is not proposing any changes or new charges to the current Specific Service Charges approved by the OEB in previous applications.

CHEI confirms that the inflation rate of 3.3% is embedded in its' "Other Operating Revenue" projections for the Bridge and Test Year 2023.

The applicant confirms that it has reconciled amounts between Specific Service Charges and Other Revenues.

#### Wireline Pole Attachment Charges

CHEI confirms that it has used Decision and Order EB-2021-0304 which states that *effective January 1, 2022, the wireline pole attachment charge will be* \$34.76 *per attacher, per year, per pole* to determine its 2023 budgets in account 4210 which is used to record revenues from Wireline Pole Attachment Charges from Rogers, Bell and Hydro One.

#### MicroFIT Monthly Service Charge

CHEI is proposing no change to the MicroFIT Monthly Service Charge of \$10.00 as was approved in the LDC's 2018 Cost of Service rate application (EB-2017-0035).

CHEI has analysed its MicroFit related costs vs its revenues and and despite its yearly costs of \$6303.36 for having its MicroFits read vs its revenues of \$1560 per year, CHEI is not proposing to change its MicroFit charges. The reason being that it want its charge to be in line with other utilities.

# 6.6.3 Revenue from Affiliate Transactions, Shared Services, Corporate Cost Allocation.

CHEI has no affiliates and as such, does not have any affiliate transactions, shared services, and corporate cost allocation that will be affecting its 2023 rates.

## **6.7 REVENUE DEFICIENCY OR SURPLUS**

## 6.7.1 Calculation of Revenue Deficiency or Sufficiency

CHEI is in a sufficiency position of \$124,033. The sufficiency is calculated as the difference between the 2023 Test Year Revenue Requirement and the Forecast Test Year Revenue Requirement at the applicant's 2022 approved distribution rates.

Revenue Deficiency = (current rates @ 2023 load forecast + revenue offsets) – (proposed rates @ 2023 load forecast + revenue offsets)

Table 13 – Revenues at current rates and 2023 load forecast and Table 14 - Revenues at proposed rates and 2023 load forecast shows the details of the derivation of the two comparators.

2022 Rates at 2023 Load					
	Test Year Projected Revenue from Existing Variable Charges				
Customer Class Name	Variable Distribution Rate	per	Test Year Volume	Gross Variable Revenue	Net Variable Revenue

### Table 15 - Revenue Deficiency (RRWF)

## 6.7.2 Causes of Revenue Surplus

CHEI's existing rates are based on the Board-approved rates in 2018 as an outcome of a costof-service rate application and subsequent annual adjustments to its' base distribution rates in years 2017 to 2020 under the Board's third Generation Incentive Regulation Mechanism.

As illustrated in the previous section, the revenue sufficiency is determined to be \$124,033.

The surplus is in line with the applicant's directives from its Board of directors to reduce rates while maintaining the integrity of its service to customers, distribution system, safety, and reliability.

CHEI notes that although the utility is in a sufficiency position, its revenue requirement has increased from its last Cost of Service. The major contributors of the increase in revenue requirement from 2018 Board Approved to Test Year (2023) are presented in the following table with explanations following.

Particular	2018	2023	Diff
Long Term Debt	2.90%	3.49%	0.59%
Short Term Debt	2.29%	1.17%	-1.12%
Return on Equity	9.00%	8.66%	-0.34%
Weighted Debt Rate	2.86%	3.34%	0.48%
Regulated Rate of Return	5.32%	5.47%	0.15%
Controllable Expenses	\$681,971	\$753,157	\$71,186
Power Supply Expense	\$3,525,627	\$3,293,006	-\$232,621
Total Eligible Distribution Expenses	\$4,207,598	\$4,046,164	-\$161,434
Working Capital Allowance Rate	7.50%	7.50%	0.00%
Total Working Capital Allowance ("WCA")	\$315,570	\$303,462	-\$12,108
Fixed Asset Opening Bal Bridge Year	\$6,244,627	\$7,185,613	\$940,986
Fixed Asset Opening Bal Test Year	\$1,879,790	\$2,708,489	\$828,699
Average Fixed Asset	\$4,062,209	\$4,477,124	\$112,287
Working Capital Allowance	\$315,570	\$303,462	-\$12,108
Rate Base	\$4,377,778	\$4,780,587	\$100,180
Regulated Rate of Return	5.32%	5.47%	0.15%
Regulated Return on Capital	\$248,792	\$261,269	\$12,477
Deemed Interest Expense	\$80,297	\$95,669	\$15,372
Deemed Return on Equity	\$168,495	\$165,600	-\$2,895
OM&A	\$681,971	\$753,157	\$71,186
Depreciation Expense	\$162,155	\$180,507	\$18,351
PILs	\$4,076	\$19,099	\$15,023
Revenue Offset	-\$29,658	-\$48,750	-\$19,092
Revenue Requirement	\$1,067,336	\$1,165,281	\$97,946

#### Table 16 – Change in Revenue Requirement

The table above shows that the Rate Base of \$4,780,587 in 2023 is higher than the 2018 Boardapproved amount of \$4,377,778 by 100,180.

The factors contributing to the change in the rate base are discussed in detail at Exhibit 2 and summarized as;

- a) Investments in the distribution system to follow the Distribution System Plan.
- b) Focus on a new subdivision and commercial project planned for 2022
- c) Continue with the pole and transformer replacement plan.

The Working Capital Allowance was reduced by \$12,108 due to a lower cost of power.

Increased Operations, Maintenance, and Administration (OM&A) expenses are another driver of the revenue deficiency. Projected OM&A for the Test Year 2023 is \$71,186 higher than the 2018 Board-approved amount. CHEI's OM&A actual costs have seen a compound annual growth rate of all years of 1.75% (from 2018 Actuals to 2023 Test Year), which is below annual inflation rates.

The cost drivers underlying this increase are explained in Exhibit 4.

All customers's rates will be affected. However, CHEI does not have any discrete customer groups that may be materially impacted by changes to other rates and charges.

#### **T2 Corporation Income Tax Return**

This form serves as a federal, provincial, and territorial corporation income tax return, unless the corporation is located in Quebec or Alberta. If the corporation is located in one of these provinces, you have to file a separate provincial corporation return.

All legislative references on this return are to the federal Income Tax Act and Income Tax Regulations. This return may contain changes that had not yet become law at the time of publication.

Send one completed copy of this return, including schedules and the General Index of Financial Information (GIFI), to your tax centre. You have to file the return within six months after the end of the corporation's tax year.

For more information see canada.ca/taxes or Guide T4012, T2 Corporation - Income Tax Guide.
