INTERIM DECISION AND ORDER

EB-2022-0082

ELLWOOD ENERGY STORAGE LP

Application for an Electricity Storage Licence

BY DELEGATION, BEFORE: **Brian Hewson**
Vice President
Consumer Protection & Industry Performance

February 14, 2022

INTERIM DECISION AND ORDER

Ellwood Energy Storage LP (EES) filed an application on February 1, 2022, with the Ontario Energy Board (OEB) pursuant to section 60 of the *Ontario Energy Board Act* (OEB Act), for an electricity storage licence.

EES was previously licensed by the OEB, and its electricity storage licence ES-2016-0216 expired on August 24, 2021. In order to generate electricity for sale, the applicant requires an electricity storage licence pursuant to section 57 of the OEB Act.

Considering the time required to process an application in accordance with the OEB's established practice and procedures, and considering the applicant's need for a licence to carry out electricity storage activities, it has been found to be in the public interest to issue an interim order granting the electricity storage licence, pending the final disposition of the matter. This Decision and Order does not constitute a final decision on the application.

The applicant is reminded that it carries the onus of filing an application in a timely manner considering the OEB's typical timelines for processing licence applications. This licence is granted without prejudice with regard to any future compliance actions.

IT IS ORDERED THAT:

An electricity storage licence is granted, on an interim basis, on such conditions as are contained in the attached licence. The licence will be valid until August 11, 2022, or until the final determination of the electricity storage licence application, whichever is earlier.

DATED at Toronto February 14, 2022

ONTARIO ENERGY BOARD
