Dear Ms. Marconi:

**Re: Enbridge 2022 to 2027 Demand Side Management (“DSM”) Plan  
EB-2021-0002**

Enclosed please find an update to the interrogatory responses on the evidence of Dr. Heather McDiarmid in this proceeding.

The update only impacts the responses to 10I.ANWAATIN.ED.1 (at page 11) and 10J.OEB STAFF.1.ED.1 (at page 14). The lines with revised figures are marked with a sidebar. These two interrogatories asked for cost-effectiveness calculations based on customer-facing prices (as opposed to avoided costs). The figures have been updated to correct some of the underlying customer-facing price figures, namely correcting an issue with the electricity rates and accounting for the gas supply charge, HST on carbon amounts, and facility carbon charges. The narrative text of the interrogatory responses is unchanged.

Yours truly,

Kent Elson
