Subject: EB-2021-0002 Enbridge Gas Inc. - Multi Year Demand Side Management Plan (2022-2027) - Presentation Day

The School Energy Coalition advises pursuant to Procedural Order #6 that it wishes to make a presentation on Presentation Day, March 24, 2022. The presentation is not intended to deal with the full breadth of the Application, but instead to focus on the following specific areas:

1. Goals of the Enbridge DSM Plan, including in particular absolute declines in gas throughput in the system, and how that interacts with shareholder incentives.
2. Inclusion of electrification programs in ratepayer-funded DSM programs.
3. Enbridge conflict of interest delivering DSM, and the potential solutions including independent supervision of program design and delivery.
4. Amortization of DSM costs and implications on budgets and targets.
5. The Legacy Union rate anomaly that requires C/I customers to fund residential programs.

We expect that this presentation will take no more than 10 minutes. The presentation would be supported by a Powerpoint filed on or before March 21.
