**EB-2022-0006 – Kitchener-Wilmot Hydro Inc. and Waterloo North Hydro Inc. Application for Leave to Amalgamate  
Pollution Probe Intervention Request**

Dear Ms. Marconi:

Pollution Probe received the notice for the above noted proceeding and hereby applies for intervenor status and requests that it be eligible for the recovery of reasonably incurred costs for its participation. Pollution Probe represents a direct consumer and policy interest related to this proceeding.

Pollution Probe is a frequent intervenor in Board proceedings and a copy of our current Annual Filing can be found on the Board's website at the following location:

<https://www.rds.oeb.ca/CMWebDrawer/Record/724793/File/document>

**Goals and Objectives**

Pollution Probe intends to focus on consumer and community impacts related to the proposed merger including rate impacts, distribution system plans, community energy plans and related policy issues.

**Intention to Seek Cost Awards**

Pollution Probe is a not-for-profit charitable organization. We receive individual donations as well as funding for consumer and research projects, such as on community energy planning, future of natural gas and regulated utility innovation, from a variety of public and private sources. Without the prospect of an award of costs, Pollution Probe's ability to participate in the consultation process would not be possible.

Pollution Probe has been an active and valuable participant in proceedings before the Ontario Energy Board and will continue to coordinate its activities, where appropriate, with other parties which represent consumer, municipal and environmental interests in Ontario.

Pollution Probe respectfully requests your acceptance of this request to participate and confirmation that it will be eligible for its costs.
