EPCOR NATURAL GAS LIMITED PARTNERSHIP- AYLMER

**Application for quarterly rate adjustment mechanism
commencing April 1, 2022**

Before: **Allison Duff**

INTRODUCTION AND PROCESS

The Ontario Energy Board (OEB) is approving an application filed by EPCOR Natural Gas Limited Partnership (EPCOR) on March 14, 2022. EPCOR applied for an order or orders approving or fixing just and reasonable rates and other charges for the sale and distribution of natural gas commencing April 1, 2022 for its Aylmer service territory (the Application).

The Application was made pursuant to section 36(1) of the *Ontario Energy Board Act, 1998* and in accordance with the Quarterly Rate Adjustment Mechanism (QRAM) established by the OEB for dealing with changes in natural gas costs.¹

EPCOR provided written evidence in support of the proposed changes. EPCOR provided the Application to all parties of record in EPCOR Aylmer's last rates proceeding.²

Parties wishing to file comments on the Application were required to file them with the OEB by March 18, 2022. No comments were received.

The Application for the Aylmer service territory reflects an increase in the forecast cost of natural gas prices over the next 12 months. The Application also reflects a true-up between actual and forecast natural gas prices for prior periods. The Application also includes changes to the federal carbon charges and temporary rate adjustments previously approved by the OEB.

¹ EB-2008-0106

² EB-2018-0336

FINDINGS

The OEB approves the Application as filed.

EPCOR's Aylmer service territory rates will be adjusted effective April 1, 2022 to reflect an increase in forecast natural gas prices and prospective recovery of the projected 12-month balances of the gas supply deferral accounts for the period ending March 2023. The reference price will also be adjusted to reflect the increase in forecast natural gas prices.

The OEB finds that this QRAM application strikes a balance between ensuring that consumers receive appropriate market price signals, and protecting the interest of consumers that purchase their gas from EPCOR by reducing, to some extent, the volatility in the market price of natural gas. Specifically, the approved natural gas commodity rates to be charged by EPCOR incorporate:

- A market price forecast for the commodity over the next 12 months
- A true-up between actual and forecast commodity prices for prior periods as actual costs are passed on to customers without a mark-up.
- Smoothing over a 12-month period.

The impact of this Application for a typical residential customer who uses 1,780 cubic metres of natural gas per year and who purchases its gas supply from EPCOR is an increase of approximately \$33 per year, or an increase of about 11.1% on the commodity portion of the bill.

EPCOR purchases natural gas, on behalf of its sales service customers in the Aylmer service territory, from Enbridge Gas Inc. (Enbridge Gas) and from a local producer³. As a result of Enbridge Gas's rate mitigation plan included in its April 2022 QRAM⁴ application, the natural gas supply costs to EPCOR have already been mitigated to some extent.

When taking into account the changes in the federal carbon charges and temporary rate adjustments (a decrease of about \$8 on an annual basis) the total annual bill impacts (which includes commodity charges, delivery charges, and all other charges) for a typical residential customer who uses 1,780 cubic metres of natural gas per year and who purchases its gas supply from ENGLP is an increase of approximately \$25 per year

³ EPCOR purchase gas from the local producer at a discount to Enbridge Gas's gas supply commodity charge

⁴ EB-2022-0089

or about 2.5%. The OEB agrees with EPCOR that as a result, no additional rate mitigation measures are required.

EPCOR included its customer communication plan with the Application. The OEB has no concerns with the communication plan. Provided customers are made aware of the rate increase, the OEB concludes that it is unnecessary for it to approve the detailed wording of that communications messaging.

THE ONTARIO ENERGY BOARD ORDERS THAT:

1. The rates approved for EPCOR Aylmer as part of the decision and rate order EB-2021-0310, dated December 16, 2021, shall be superseded by the rates as provided in Appendix A to this Decision and Rate Order.
2. The rates approved shall be effective April 1, 2022 and shall be implemented in EPCOR's first billing cycle commencing in April 2022.
3. The reference price for use in determining the amounts to be recorded in the Purchase Gas Commodity Variance Account (Account No.179-27) shall increase by \$0.021286 per m³ from the previous OEB approved level of \$0.177732 per m³ to **\$0.199018** per m³ as shown in Appendix A, Schedule A to this Decision and Rate Order.
4. The balance in the Gas Purchase Rebalancing Account shall be prospectively cleared. The resulting gas supply charge will increase from the previous OEB approved level of \$0.169339 per m³ to **\$0.188062** per m³ as indicated in Appendix A, Schedule A to this Decision and Rate Order.
5. EPCOR must ensure its customers are made aware of the rate increase.
6. EPCOR shall pay the OEB's costs incidental to this proceeding upon receipt of the OEB's invoice.

⁽²⁾ The Federal Carbon Charge is only “applicable” to 20% of the natural gas volumes used by eligible greenhouses, reducing their effective Federal Carbon Charge rate.

Meter Readings

Gas consumption by each customer under this rate schedule shall be determined by monthly meter reading, provided that in circumstances beyond the control of the company such as strikes or non-access to a meter, the company may estimate the consumption each month as of the scheduled date of the regular monthly meter reading and render a monthly bill to the customer thereof.

Delayed Payment Penalty

When payment is not made in full by the due date noted on the bill, which date shall not be less than 16 calendar days after the date of mailing, hand delivery or electronic transmission of the bill, the balance owing will be increased by 1.5%. Any balance remaining unpaid in subsequent months will be increased by a further 1.5% per month. The minimum delayed payment penalty shall be one dollar (\$1.00).

Bundled Direct Purchase Delivery

Where a customer elects under this rate schedule to directly purchase its gas from a supplier other than EPCOR, the customer or their agent must enter into a Bundled T-Service Receipt Contract with EPCOR for delivery of gas to EPCOR. Bundled T-Service Receipt Contract rates are described in rate schedule BT1. The gas supply charge will not be applicable to customers who elect said Bundled T transportation service.

Unless otherwise authorized by EPCOR, customers who are delivering gas to EPCOR under direct purchase arrangements must obligate to deliver said gas at a point acceptable to EPCOR, and must acquire and maintain firm transportation on all pipeline systems upstream of Ontario.

Effective: April 1, 2022

Implementation: All bills rendered on or after April 1, 2022

A customer who enters into a contract with the company for the purchase or transportation of gas:

- a) for a minimum term of one year;
- b) that specifies a combined daily contracted demand for firm and interruptible service of at least 700 m³; and
- c) a qualifying annual volume of at least 113,000 m³.

Rate

1. Bills will be rendered monthly and shall be the total of:

- a) A Monthly Customer Charge⁽¹⁾:

A Monthly Customer Charge of \$201.00 for firm or interruptible customers; or
A Monthly Customer Charge of \$223.00 for combined (firm and interruptible) customers.

Rate Rider for REDA recovery (2022) \$0.33
– effective for 12 months ending December 31, 2022

- b) A Monthly Demand Charge:

A Monthly Demand Charge of 30.6443 cents per m³ for each m³ of daily contracted firm demand.

- c) A Monthly Delivery Charge:

- (i) A Monthly Firm Delivery Charge for all firm volumes of 4.0445 cents per m³,
- (ii) A Monthly Interruptible Delivery Charge for all interruptible volumes to be negotiated between the company and the customer not to exceed 11.0113 cents per m³ and not to be less than 7.9775 per m³.

Rate Rider for PGTVA recovery (2022) 0.3195 cents per m³
– effective for 12 months ending December 31, 2022

Rate Rider for SICDA recovery (2022) 0.0179 cents per m³

Rate Rider for FCCVA recovery (if applicable) \$0.03 per month
– effective for 12 months ending March 31, 2023

Rate Rider for GGEADA recovery \$0.03 per month
– effective for 12 months ending March 31, 2023

e) Gas Supply Charge and System Gas Refund Rate Rider (if applicable) Schedule A

f) Overrun Gas Charges:

Overrun gas is available without penalty provided that it is authorized by the company in advance. The company will not unreasonably withhold authorization.

If, on any day, the customer should take, without the company's approval in advance, a volume of gas in excess of the maximum quantity of gas which the company is obligated to deliver to the customer on such day, or if, on any day, the customer fails to comply with any curtailment notice reducing the customer's take of gas, then,

- (i) the volume of gas taken in excess of the company's maximum delivery obligation for such day, or
- (ii) the volume of gas taken in the period on such day covered by such curtailment notice (as determined by the company in accordance with its usual practice) in excess of the volume of gas authorized to be taken in such period by such curtailment notice,

as the case may be, shall constitute unauthorized overrun volume.

Any unauthorized firm overrun gas taken in any month shall be paid for at the Rate 3 Firm Delivery Charge in effect at the time the overrun occurs. In addition, the Contract Demand level shall be adjusted to the actual maximum daily volume taken and the Demand Charges stated above shall apply for the whole contract year, including retroactively, if necessary, thereby requiring recomputation of bills rendered previously in the contract year.

Any unauthorized interruptible overrun gas taken in any month shall be paid for at the Rate 1 Delivery Charge in effect at the time the overrun occurs plus any Gas Supply Charge applicable.

For any unauthorized overrun gas taken, the customer shall, in addition, indemnify the company in respect of any penalties or additional costs imposed on the company by the company's suppliers, any additional gas cost incurred or any sales margins lost as a consequence of the customer taking the unauthorized overrun volume.

(1) Aggregated within Monthly Fixed Charge is the amount of one dollar per month in accordance with Bill 32 and Ontario Regulation 24/19.

(2) The Federal Carbon Charge is only "applicable" to 20% of the natural gas volumes used by eligible greenhouses, reducing their effective Federal Carbon Charge rate.

2. In negotiating the Monthly Interruptible Commodity Charge referred to in 1(c)(ii) above, the matters to be considered include:

- a) The volume of gas for which the customer is willing to contract;
 - b) The load factor of the customer's anticipated gas consumption, the pattern of annual use, and the minimum annual quantity of gas which the customer is willing to contract to take or in any event pay for;
 - (i) Interruptible or curtailment provisions; and
 - (ii) Competition.
3. In each contract year, the customer shall take delivery from the company, or in any event pay for it if available and not accepted by the customer, a minimum volume of gas as specified in the contract between the parties. Overrun volumes will not contribute to the minimum volume. The rate applicable to the shortfall from this minimum shall be 3.1530 cents per m³ for firm gas and 5.4412 cents per m³ for interruptible gas.
4. The contract may provide that the Monthly Demand Charge specified in Rate Section 1 above shall not apply on all or part of the daily contracted firm demand used by the customer during the testing, commissioning, phasing in, decommissioning and phasing out of gas-using equipment for a period not to exceed one year (the transition period). In such event, the contract will provide for a Monthly Firm Delivery Commodity Charge to be applied on such volume during the transition of 5.7163 cents per m³ and a gas supply commodity charge as set out in Schedule A, if applicable. Gas purchased under this clause will not contribute to the minimum volume.

Bundled Direct Purchase Delivery

Where a customer elects under this rate schedule to directly purchase its gas from a supplier other than EPCOR, the customer or their agent must enter into a Bundled T-Service Receipt Contract with EPCOR for delivery of gas to EPCOR. Bundled T-Service Receipt Contract rates are described in rate schedule BT1. The gas supply charge will not be applicable to customers who elect said Bundled T transportation service.

Unless otherwise authorized by EPCOR, customers who are delivering gas to EPCOR under direct purchase arrangements must obligate to deliver said gas at a point acceptable to EPCOR, and must acquire and maintain firm transportation on all pipeline systems upstream of Ontario.

Delayed Payment Penalty

When payment is not made in full by the due date noted on the bill, which date shall not be less than 16 calendar days after the date of mailing, hand delivery or electronic transmission of the bill, the balance owing will be increased by 1.5%. Any balance remaining unpaid in subsequent months will be increased by a further 1.5% per month. The minimum delayed payment penalty shall be one dollar (\$1.00).

EPCOR Natural Gas Limited Partnership

RATE BT1 – Bundled Direct Purchase Contract Rate

Rate Availability

Rate BT1 is available to all customers or their agent who enter into a Receipt Contract for delivery of gas to EPCOR. The availability of this option is subject to EPCOR obtaining a satisfactory agreement or arrangement with Enbridge Gas Inc. and EPCOR's gas supplier for direct purchase volume and DCQ offsets.

Eligibility

All customers electing to purchase gas directly from a supplier other than EPCOR must enter into a Bundled T- Service Receipt Contract with EPCOR either directly or through their agent, for delivery of gas to EPCOR at a mutually acceptable delivery point.

Rate

For gas delivered to EPCOR at any point other than the Ontario Point of Delivery, EPCOR will charge a customer or their agent all approved tolls and charges incurred by EPCOR to transport the gas to the Ontario Point of Delivery.

Note:

Ontario Point of Delivery means Dawn or Parkway on the Enbridge Gas Inc. (Union South) System as agreed to by EPCOR and EPCOR's customer or their agent.

Effective: April 1, 2022

Implementation: All bills rendered on or after April 1, 2022
