**Re: Natural Gas Demand Side Management Evaluation Advisory Committee
Errata for March 22, 2022 Decision and Order on Cost Awards**

In its Decision and Order on Cost Awards issued on March 22, 2022, the OEB approved certain cost awards with respect to the natural gas demand side management evaluation advisory committee. The OEB identified a transpositional error in that Decision and Order regarding the cost award amounts noted on page 3.

Pursuant to its powers under Rule 41.02 of the OEB's *Rules of Practice and Procedure*, the OEB may at any time, without notice or a hearing of any kind, correct a typographical error, error of calculation or similar error made in its orders or decisions. The OEB is amending the Decision and Order under this power to correct the error.

The revised Decision and Order is attached. This revised Decision and Order supersedes and replaces the previously issued Decision and Order. The Decision and Order is not otherwise changed in any way.

Yours truly,

Nancy Marconi
