Re: Independent Electricity System Operator (IESO) 2022 Revenue Requirement, Expenditures and Fees
AMPCO Intervention Request
Board File No. EB-2022-0002

Dear Ms. Marconi:

I am writing pursuant to the OEB's Notice regarding the above proceeding to request intervenor status.

AMPCO's Interest

AMPCO is a not-for-profit consumer interest advocacy organization. AMPCO's members represent Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general. AMPCO members are major investors, major employers and a major part of communities in which we operate, across Ontario.

AMPCO and its member companies are well known to the Board. AMPCO participates in many proceedings, working groups, consultations and initiatives of the Ontario Energy Board in which matters relevant to Ontario's large electricity consumers are being addressed. AMPCO has previously been approved by the OEB in numerous IESO proceedings.

AMPCO's interest in the Board's regulation of distribution and transmission companies relates generally to the interests of consumers with respect to price, adequacy, reliability, affordability and quality of electricity service, and, more particularly, to how costs are allocated to, and rates are designed to recover costs from, industrial customers.

In this application, the IESO seeks approval of a revenue requirement of \$201.5 million, operating and capital expenditures and usage fees for the year 2022 including a request to charge a Reliable Integration fee. In addition to these issues, AMPCO's interest in the application relates to the status of the plan for the Market Renewal Program (MRP) and the 2022-2024 Business Plan that underpins this application.

We respectfully request that the Board please confirm AMPCO's eligibility for an award of costs in this matter.

I trust this letter will suffice for the Board to grant intervenor status to AMPCO and to confirm AMPCO's eligibility for a cost award.
