Application for an Electricity Generation Licence

| For Office Use Only | |
|---------------------|-----|
| Application Number | EB- |
| Date Received | |

1. The Applicant

Legal Name of the Applicant : MPT Hydro LP

Business Classification:

Sole Proprietor

Partnership

Corporation

Other (describe) _____

Date of formation or incorporation: November 15, 2010

Place of formation or incorporation:

Province/State Ontario

Country Canada

If the applicant is an individual, the applicant must be at least 18 years old. If the applicant is an individual, is he or she at least 18 years old?

Yes

No

Not Applicable - not an individual

Head Office or Business Address of Applicant

155 Wellington Street West, Suite 2930

| | | | |
|----------------|----------------|---------------|-----------------|
| City | Province/State | Country | Postal/Zip Code |
| <u>Toronto</u> | <u>Ontario</u> | <u>Canada</u> | <u>M5V 3H1</u> |

| | | |
|---------------------|--------------------------|-------------------------------|
| Phone Number | Toll Free (if available) | E-mail Address |
| <u>416-649-1300</u> | | <u>info@capstoneinfra.com</u> |

Website Address www.capstoneinfrastructure.com

2. Application Type

New

Renewal, provide the licence number and expiry date of the current licence.

Licence Number EG-2001-0772

Expiry Date 21-Jan-22

3. Licence Primary Contact

The licensee shall designate a person who will act as primary contact with the OEB on matters related to the licence.

| | | | | |
|---|--------------------------------------|--|--|----------------------|
| Mr. <input checked="" type="radio"/> | Mrs. <input type="radio"/> | Last Name | First Name | Initial |
| Miss <input type="radio"/> | Ms. <input type="radio"/> | <input type="text" value="Leitch"/> | <input type="text" value="Patrick"/> | <input type="text"/> |
| Other <input type="radio"/> | <input type="text"/> | Title/Position | <input type="text" value="Senior Vice President, Operations"/> | |
| | | Company Name | <input type="text" value="Capstone Infrastructure Corporation"/> | |
| Licence Primary Contact Address: | | | | |
| <input type="text" value="155 Wellington Street West, Suite 2930"/> | | | | |
| City | Province/State | Country | Postal/Zip Code | |
| <input type="text" value="Toronto"/> | <input type="text" value="Ontario"/> | <input type="text" value="Canada"/> | <input type="text" value="M5V 3H1"/> | |
| Phone Number | Toll Free (if available) | E-mail Address | | |
| <input type="text" value="416-649-1316"/> | <input type="text"/> | <input type="text" value="pleitch@capstoneinfra.com"/> | | |

4. Application Primary Contact

Indicate if same as above. Proceed to section 5.

The primary contact for the licence application may be a person within the applicant's organization other than the licence primary contact noted above. An applicant may also choose to designate a consultant, lawyer, etc. to be the primary contact for the licence application. The OEB will communicate with this person during the course of the application review process but with the licence primary contact after a licence is issued.

| | | | | |
|--------------------------------------|----------------------------|-------------------------------------|--|----------------------|
| Mr. <input checked="" type="radio"/> | Mrs. <input type="radio"/> | Last Name | First Name | Initial |
| Miss <input type="radio"/> | Ms. <input type="radio"/> | <input type="text" value="Luedke"/> | <input type="text" value="Hans"/> | <input type="text"/> |
| Other <input type="radio"/> | <input type="text"/> | Title/Position | <input type="text" value="Asset Manager, Operations"/> | |
| | | Company Name | <input type="text" value="Capstone Infrastructure Corporation"/> | |

Application Primary Contact Address:

155 Wellington Street West, Suite 2930

| | | | |
|--------------|--------------------------|---------------------------|-----------------|
| City | Province/State | Country | Postal/Zip Code |
| Toronto | Ontario | Canada | M5V 3H1 |
| Phone Number | Toll Free (if available) | E-mail Address | |
| 416-649-1307 | | hluedke@capstoneinfra.com | |

5. Trade Names

The electricity generation licence authorizes the licensee to conduct business using the name under which the licence is held (i.e. the applicant's legal name). It also provides for the use of trade names by the licensee.

Does the applicant intend to use trade names?

- Yes, provide a list of trade names the applicant intends to use in the space provided below.
- No, proceed to section 6.

| |
|--|
| |
| |
| |
| |

6. Applicant's Licensing Status and History

(a) Has the applicant, an affiliate of the applicant, or an associated entity (e.g., a partnership or limited partnership), ever been licensed by the OEB? (The *Business Corporations Act* definition for affiliate can be found at www.e-laws.gov.on.ca)

- Yes, provide details of current and expired licences in the table below.
- No, proceed to 6(b).

| Licensee Name | Relation to the Applicant (e.g., applicant itself, affiliate, partner...etc.) | Licence Number |
|--|--|----------------|
| CPOT Title Corp. on behalf of MPT Hydro LP | General Partner of the Applicant | EG-2001-0772 |
| | | |
| | | |
| | | |
| | | |

(b) Does the applicant, an affiliate of the applicant, or an associated entity have any other application(s) before the OEB?

Yes, provide details in the table below.

No, proceed to 6(c).

| Applicant Name | Relationship to this Applicant | Type of Application | OEB File Number |
|----------------|--------------------------------|---------------------|-----------------|
| | | | |
| | | | |
| | | | |

(c) Has the applicant, an affiliate of the applicant, or an associated entity ever undertaken energy sector activity in any other jurisdiction within North America?

Yes, provide details in the table below.

No

| Company Name | Relation to the Applicant | Jurisdiction | Business Activity | Name of Licensing Body and Licence/Registration No. (if applicable) |
|------------------|----------------------------------|------------------|---------------------------|---|
| MPT Hydro LP | Applicant | British Columbia | Hydro Electric Facilities | |
| CPOT Title Corp. | General Partner of the Applicant | British Columbia | Hydro Electric Facilities | |
| | | | | |

7. Key Individuals

In the table below, identify all key individuals associated with the applicant's business. Key individuals include sole proprietors, each partner, all officers and directors of a corporation, all shareholders with 10% or more of the equity shares of a corporation, managers, and any other individuals with a beneficial interest.

| Name of Key Individual | Title/Position within Applicant's Business (or identify company if not the Applicant's Business) |
|------------------------|--|
| David Eva | Director & Chief Executive Officer, CPOT Title Corp. |
| Andrew Kennedy | Director & Chief Financial Officer, CPOT Title Corp. |
| Aileen Gien | Director & Gen. Counsel & Corp. Sec., CPOT Title Corp. |
| Patrick Leitch | Sr. VP, Operations, CPOT Title Corp. |
| | |
| | |
| | |

8. Intended Services and Markets

- (a) The OEB Act defines “ancillary services” as services necessary to maintain the reliability of the IESO-controlled grid, including frequency control, voltage control, reactive power, and operating reserve services. Does the applicant intend to sell electricity or ancillary services into the IESO administered market?

Yes

No

- (b) Does the applicant intend to settle with an electricity distributor for the electricity injected into the distribution system in accordance with the retail settlement system?

Yes, please identify the electricity distributor Hydro One Networks Inc. (HONI)

No

- (c) Does the applicant intend to sell electricity to another person?

Yes

No

If yes, is this person a consumer (i.e., a person who uses, for the person's own consumption, electricity that the person did not generate)?

Yes. The applicant may require a retailer licence. The application form can be found at www.oeb.ca

No

9. Facility Description

Is the applicant applying to be licensed for more than one facility?

Yes, please make a copy of sections 9, 10 and 11 for each facility and provide information for each facility

No

Generation Type

Diesel Natural Gas Water Wind

Other, please specify _____

Installed Capacity 13.5 MW

Number of Units 3

If the applicant is selling ancillary services, please describe: _____

Facility name: Wawatay Hydroelectric Generating Station

Facility Address: Highway 17 & Black River Road, Marathon, ON

Licence Responsibility/Qualification Sought

- Owner and Operator
- Owner Only. Please identify operator Regional Power Opco Inc.
- Operator Only. Please identify owner _____

If the applicant is applying for only one of the two qualifications, please provide information on the status of the other qualification. The information should include confirmation as to whether or not the person or entity seeking the other qualification is licensed; if licensed, please provide the licence number and, if not, indicate when an application for the other qualification will be filed with the OEB.

Regional Power Opco Inc. is licensed with OEB under EG-2003-0207.

10. Facility History and Status

Is the facility in commercial service?

- Yes, proceed to section 10(a)
- No, proceed to section 10(b) or 10(c) as applicable.

(a) Existing Facility in Commercial Service

When did this facility achieve commercial operation? 1992.

Is the applicant the original owner and operator?

- Yes
- No, identify previous owner and operator: Regional Power Opco Inc.

(b) New Facility

Has facility construction commenced?

- Yes
- No

What is the expected commercial in service date? _____

(c) Existing Facility **NOT** in Commercial Service

What is the expected commercial in service date? _____

Please provide a list of all other regulatory approvals required (e.g. environmental, municipal, etc.). Please identify the status of each approval.

11. Connection

What is the voltage at the perimeter of the applicant's property from the output of the generation facility?

- 50 kV or less, proceed to section 11(a)
 greater than 50 kV, proceed to section 11(b)

- (a) The OEB Act defines a "distribution system" as a system for distributing electricity, and includes any structures, equipment or other things used for that purpose. "Distribute", with respect to electricity, means to convey electricity at voltages of 50 kV or less.

Describe the existing or future distribution system from the output of the generation facility to the connection point with the electricity distributor or to the connection point with the transmission system (e.g., length of line, transformers, etc.).

Does (or will) the applicant own and/or operate the distribution system?

- Yes
 No, identify the owner and/or operator of the distribution system _____

If yes, does the applicant own and/or operate the distribution system only for the purpose of conveying electricity from the generation facility to the IESO-controlled grid?

- Yes
 No, describe the purpose of the distribution system _____
-

If the answer to the question above is no, the applicant may require a distribution licence. The application form can be found at www.oeb.ca.

Does (or will) the distribution system connect the generation facility to an electricity distributor?

- Yes, identify the electricity distributor _____
 No, proceed to section 11(b)

- (b) The OEB Act defines a "transmission system" as a system for transmitting electricity, and includes any structures, equipment or other things used for that purpose. "Transmit", with respect to electricity, means to convey electricity at voltages of more than 50 kV.

Describe the existing or future transmission system from the output of the generation facility or applicant's distribution system to the connection point with the transmission network (e.g., length of line, transformers, etc.).

5km of private transmission line (115 kV) connects Wawatay GS's main transformer (20 MVA) to Hydro One's M2W transmission line (115 kV).

Does (or will) the applicant own and/or operate the transmission system?

Yes

No, identify the owner and/or operator of the transmission system Hydro One Networks Inc. (HONI)

If yes, does the applicant own and/or operate the transmission system only for the purpose of conveying electricity from the generation facility to the IESO-controlled grid?

Yes

No, describe the purpose of the transmission system _____

If the answer to the question above is no, the applicant may require a transmission licence. The application form can be found at www.oeb.ca.

Licence Responsibility/Qualification Sought

- Owner and Operator
- Owner Only. Please identify operator Regional Power Opco Inc.
- Operator Only. Please identify owner _____

If the applicant is applying for only one of the two qualifications, please provide information on the status of the other qualification. The information should include confirmation as to whether or not the person or entity seeking the other qualification is licensed; if licensed, please provide the licence number and, if not, indicate when an application for the other qualification will be filed with the OEB.

Regional Power Opco Inc. is licensed with OEB under EG-2003-0207.

10. Facility History and Status

Is the facility in commercial service?

- Yes, proceed to section 10(a)
- No, proceed to section 10(b) or 10(c) as applicable.

(a) Existing Facility in Commercial Service

When did this facility achieve commercial operation? 1928.

Is the applicant the original owner and operator?

- Yes
- No, identify previous owner and operator: Regional Power Opco Inc.

(b) New Facility

Has facility construction commenced?

- Yes
- No

What is the expected commercial in service date? _____

(c) Existing Facility **NOT** in Commercial Service

What is the expected commercial in service date? _____

Please provide a list of all other regulatory approvals required (e.g. environmental, municipal, etc.). Please identify the status of each approval.

11. Connection

What is the voltage at the perimeter of the applicant's property from the output of the generation facility?

- 50 kV or less, proceed to section 11(a)
 greater than 50 kV, proceed to section 11(b)

- (a) The OEB Act defines a "distribution system" as a system for distributing electricity, and includes any structures, equipment or other things used for that purpose. "Distribute", with respect to electricity, means to convey electricity at voltages of 50 kV or less.

Describe the existing or future distribution system from the output of the generation facility to the connection point with the electricity distributor or to the connection point with the transmission system (e.g., length of line, transformers, etc.).

20m of line (12.47 kV) connects Eagle River's main transformer (4 MVA) to Hydro One's disconnect switch.

Does (or will) the applicant own and/or operate the distribution system?

- Yes
 No, identify the owner and/or operator of the distribution system Hydro One Networks Inc. (HONI)

If yes, does the applicant own and/or operate the distribution system only for the purpose of conveying electricity from the generation facility to the IESO-controlled grid?

- Yes
 No, describe the purpose of the distribution system _____
-

If the answer to the question above is no, the applicant may require a distribution licence. The application form can be found at www.oeb.ca.

Does (or will) the distribution system connect the generation facility to an electricity distributor?

- Yes, identify the electricity distributor Hydro One Networks Inc. (HONI)
 No, proceed to section 11(b)

- (b) The OEB Act defines a "transmission system" as a system for transmitting electricity, and includes any structures, equipment or other things used for that purpose. "Transmit", with respect to electricity, means to convey electricity at voltages of more than 50 kV.

Describe the existing or future transmission system from the output of the generation facility or applicant's distribution system to the connection point with the transmission network (e.g., length of line, transformers, etc.).

Does (or will) the applicant own and/or operate the transmission system?

Yes

No, identify the owner and/or operator of the transmission system _____

If yes, does the applicant own and/or operate the transmission system only for the purpose of conveying electricity from the generation facility to the IESO-controlled grid?

Yes

No, describe the purpose of the transmission system _____

If the answer to the question above is no, the applicant may require a transmission licence. The application form can be found at www.oeb.ca.

Licence Responsibility/Qualification Sought

- Owner and Operator
- Owner Only. Please identify operator Regional Power Opco Inc.
- Operator Only. Please identify owner _____

If the applicant is applying for only one of the two qualifications, please provide information on the status of the other qualification. The information should include confirmation as to whether or not the person or entity seeking the other qualification is licensed; if licensed, please provide the licence number and, if not, indicate when an application for the other qualification will be filed with the OEB.

Regional Power Opco Inc. is licensed with OEB under EG-2003-0207.

10. Facility History and Status

Is the facility in commercial service?

- Yes, proceed to section 10(a)
- No, proceed to section 10(b) or 10(c) as applicable.

(a) Existing Facility in Commercial Service

When did this facility achieve commercial operation? 1938.

Is the applicant the original owner and operator?

- Yes
- No, identify previous owner and operator: Regional Power Opco Inc.

(b) New Facility

Has facility construction commenced?

- Yes
- No

What is the expected commercial in service date? _____

(c) Existing Facility **NOT** in Commercial Service

What is the expected commercial in service date? _____

Please provide a list of all other regulatory approvals required (e.g. environmental, municipal, etc.). Please identify the status of each approval.

11. Connection

What is the voltage at the perimeter of the applicant's property from the output of the generation facility?

- 50 kV or less, proceed to section 11(a)
 greater than 50 kV, proceed to section 11(b)

- (a) The OEB Act defines a "distribution system" as a system for distributing electricity, and includes any structures, equipment or other things used for that purpose. "Distribute", with respect to electricity, means to convey electricity at voltages of 50 kV or less.

Describe the existing or future distribution system from the output of the generation facility to the connection point with the electricity distributor or to the connection point with the transmission system (e.g., length of line, transformers, etc.).

Output of McKenzie GS is combined with output of Eagle River GS. Combined output is stepped up at Eagle River's main transformer (4MVA) to 12.47 kV and connects to Hydro One's hydro switch 20m away.

Does (or will) the applicant own and/or operate the distribution system?

- Yes
 No, identify the owner and/or operator of the distribution system Hydro One Networks Inc. (HONI)

If yes, does the applicant own and/or operate the distribution system only for the purpose of conveying electricity from the generation facility to the IESO-controlled grid?

- Yes
 No, describe the purpose of the distribution system _____
-

If the answer to the question above is no, the applicant may require a distribution licence. The application form can be found at www.oeb.ca.

Does (or will) the distribution system connect the generation facility to an electricity distributor?

- Yes, identify the electricity distributor Hydro One Networks Inc. (HONI)
 No, proceed to section 11(b)

- (b) The OEB Act defines a "transmission system" as a system for transmitting electricity, and includes any structures, equipment or other things used for that purpose. "Transmit", with respect to electricity, means to convey electricity at voltages of more than 50 kV.

Describe the existing or future transmission system from the output of the generation facility or applicant's distribution system to the connection point with the transmission network (e.g., length of line, transformers, etc.).

Does (or will) the applicant own and/or operate the transmission system?

Yes

No, identify the owner and/or operator of the transmission system _____

If yes, does the applicant own and/or operate the transmission system only for the purpose of conveying electricity from the generation facility to the IESO-controlled grid?

Yes

No, describe the purpose of the transmission system _____

If the answer to the question above is no, the applicant may require a transmission licence. The application form can be found at www.oeb.ca.

Licence Responsibility/Qualification Sought

- Owner and Operator
- Owner Only. Please identify operator Regional Power Opco Inc.
- Operator Only. Please identify owner _____

If the applicant is applying for only one of the two qualifications, please provide information on the status of the other qualification. The information should include confirmation as to whether or not the person or entity seeking the other qualification is licensed; if licensed, please provide the licence number and, if not, indicate when an application for the other qualification will be filed with the OEB.

Regional Power Opco Inc. is licensed with OEB under EG-2003-0207.

10. Facility History and Status

Is the facility in commercial service?

- Yes, proceed to section 10(a)
- No, proceed to section 10(b) or 10(c) as applicable.

(a) Existing Facility in Commercial Service

When did this facility achieve commercial operation? 1922.

Is the applicant the original owner and operator?

- Yes
- No, identify previous owner and operator: Regional Power Opco Inc.

(b) New Facility

Has facility construction commenced?

- Yes
- No

What is the expected commercial in service date? _____

(c) Existing Facility **NOT** in Commercial Service

What is the expected commercial in service date? _____

Please provide a list of all other regulatory approvals required (e.g. environmental, municipal, etc.). Please identify the status of each approval.

11. Connection

What is the voltage at the perimeter of the applicant's property from the output of the generation facility?

- 50 kV or less, proceed to section 11(a)
 greater than 50 kV, proceed to section 11(b)

- (a) The OEB Act defines a "distribution system" as a system for distributing electricity, and includes any structures, equipment or other things used for that purpose. "Distribute", with respect to electricity, means to convey electricity at voltages of 50 kV or less.

Describe the existing or future distribution system from the output of the generation facility to the connection point with the electricity distributor or to the connection point with the transmission system (e.g., length of line, transformers, etc.).

500m of private line (12.5 kV) connects Wainwright's main transformer (1.5 MVA) to Hydro One's disconnect switch on Kellar Rd.

Does (or will) the applicant own and/or operate the distribution system?

- Yes
 No, identify the owner and/or operator of the distribution system Hydro One Networks Inc. (HONI)

If yes, does the applicant own and/or operate the distribution system only for the purpose of conveying electricity from the generation facility to the IESO-controlled grid?

- Yes
 No, describe the purpose of the distribution system _____
-

If the answer to the question above is no, the applicant may require a distribution licence. The application form can be found at www.oeb.ca.

Does (or will) the distribution system connect the generation facility to an electricity distributor?

- Yes, identify the electricity distributor Hydro One Networks Inc. (HONI)
 No, proceed to section 11(b)

- (b) The OEB Act defines a "transmission system" as a system for transmitting electricity, and includes any structures, equipment or other things used for that purpose. "Transmit", with respect to electricity, means to convey electricity at voltages of more than 50 kV.

Describe the existing or future transmission system from the output of the generation facility or applicant's distribution system to the connection point with the transmission network (e.g., length of line, transformers, etc.).

Does (or will) the applicant own and/or operate the transmission system?

Yes

No, identify the owner and/or operator of the transmission system _____

If yes, does the applicant own and/or operate the transmission system only for the purpose of conveying electricity from the generation facility to the IESO-controlled grid?

Yes

No, describe the purpose of the transmission system _____

If the answer to the question above is no, the applicant may require a transmission licence. The application form can be found at www.oeb.ca.
